LICENSING AND REGULATION OF DISTILLERIES.

2. Any person desiring to obtain a license to work a distillery in any place in Bengal shall apply in writing to the Commissioner giving the following particulars:—

(1) the name or names, and the address or addresses, of the person or persons applying; if a firm, the name of every partner of the firm; and if a company, the registered name and address thereof;

(2) the purpose for which the distillery is proposed to be opened, specifying in detail the nature of the business which the applicant desires to carry on therein;

(3) the name of the place in which, the site on which, and the buildings in which the distillery is to be constructed or worked;

(4) the number and full description of the stills, vats and other permanent apparatus which the applicant wishes to work or set up, and the size and capacity of such stills, etc.;

(5) the date from which, in the event of a license being granted to him, the applicant proposes to commence working the distillery;

(6) the amount of security which the applicant is ready to furnish for the due performance of the conditions on which a license may be granted to him; and

(7) a correct plan of the buildings which he intends to use, or to construct for his distillery, and a plan showing the position of stills, vats and other permanent apparatus therein, and a list of store-rooms, warehouses, etc., connected therewith.

3. (*1*) On receipt of the application, and after consulting the Collector of the district in which the distillery is proposed to be opened regarding the suitability of the site, and buildings, if there be any already, and on any other points, and on receipt of the Collector's opinion, and after such further inquiry as he deems necessary, the Commissioner shall decide whether the license for the opening of the distillery should be granted or not. The number of distilleries which can be allowed to be opened in the Presidency, mainly for the supply of country spirit, is limited, and in deciding whether a license for the working of a distillery is to be granted or not, the Commissioner will take into full consideration the purpose for which it is proposed to open the distillery and the demand or necessity for such a distillery.

(*2*) Distilleries may be opened for—

(*a*) supply of country spirit;
(*b*) supply of foreign liquor;
(*c*) supply of spirit for the manufacture of chemicals, medicated articles, etc., or for other industrial purposes;
(*d*) for all or any of the above purposes combined.

(*3*) If the Commissioner sanctions the opening of a distillery, he shall so inform the applicant and the Collector of the district in which the distillery is to be opened.

(*4*) The applicant shall then be called upon to make arrangements for the construction of the distillery. Upon completion of the building and after the stills and other appliances and apparatus have been set up, he must deposit two fresh copies of the plans with the Collector, who shall cause them to be verified in any manner he thinks proper, and then submit one copy to the Commissioner for examination and for comparison with the plans first submitted, and for any further verification he may think necessary. After final approval by the Commissioner, the Collector will be instructed to grant a license to the applicant in the prescribed form. The applicant shall be bound to conform to the wishes of the Commissioner within a reasonable time to be fixed by that officer regarding any addition or alteration to the buildings, stills, vats or other permanent apparatus or plans which he considers necessary, whether before or after the final plants are submitted, for the proper security of the revenue or to render illicit practices impracticable.

(*5*) No addition or alteration to the buildings, stills or other permanent apparatus as shown in the plans finally submitted by the applicant shall be made without the previous sanction of the Commissioner obtained through the officer in charge and the Collector. If the Commissioner so directs, such additions or alterations may be permitted by the Collector subject to the Commissioner's approval. When any such additions or alterations are made, fresh plans must be submitted to the Commissioner through the Collector with a certificate from the officer in charge that they are correct.

(*6*) It will be open to the Commissioner to verify at any time any of the descriptions and plans above mentioned and on proof of error to require fresh ones to be submitted for sanction. Such verifications may be made by any officer deputed for the purpose, and such officer shall be allowed full access to the premises. Sanction to the plans may be withheld until any point in respect of which they differ from plans already sanctioned has been rectified to the satisfaction of the Commissioner. The distiller shall be bound to carry out such rectification within a reasonable time to be fixed by the Commissioner.

4. Before the license to work the distillery is granted by the Collector, the distiller shall make a deposit of Rs. 1,000 as security for the due observance of the conditions of the license, and shall execute a bond in the prescribed form pledging the premises, stills, and all apparatus and utensils employed in the manufacture of spirit, for the due discharge of all payments which may become due to Government. In lieu of executing such a bond, the distiller may deposit Government promissory notes of such value as the Commissioner may direct.

5. The license for a distillery must be renewed annually. Such renewal will be granted by the Collector subject to the approval of the Commissioner.

6. The Commissioner shall appoint such officers and establishment as he thinks fit to the charge of a distillery. The cost of such establishment

shall ordinarily be borne by Government; but in cases in which the cost of such establishment exceeds 5 per cent. of the duty on issues from the distillery, the distiller may be required by the Commissioner to contribute the whole or any part of the cost. In such cases the contribution shall be paid monthly in advance.

7. The distiller shall also provide suitable quarters, to the satisfaction of the Commissioner, for the officer in charge and other establishment, in close proximity to the distillery, and shall keep the same and the appurtenances thereto in proper repair. He shall also supply such office furniture as may be required for the use of the officers within the distillery.

8. Every proprietor or manager of a licensed distillery must give at least fifteen days' notice in writing to the Collector of the date on which he proposes to commence working the distillery and at least one month's notice before he ceases to work it.

9. In case a distiller shall cease distilling or issuing spirits for a period exceeding one month, the Commissioner may withdraw the establishment stationed at the distillery and may prohibit all further distillation and issue of spirits until the distiller has given him fifteen days' notice in writing of the date on which he proposes to recommence distilling or issuing spirits, as the case may be.

10. (*1*) The distiller shall so arrange his stills that spirit shall discharge into closed and locked receivers of such pattern that no spirit can be removed from them unless they are unlocked. The Commissioner may require the distiller to affix to any receiver an apparatus which will prevent the supply and discharge cocks being open at the same time. Every pipe used for conveying spirit or feints must be so fixed and placed as to be visible throughout its entire length and shall, if the Commissioner so direct, be coated with oil paint of a particular colour, and all joints thereof shall be sealed in such manner as the Commissioner may prescribe. If the condensing worm is made of copper, or if the spirit passes through pipes wholly or partly made of copper, such measures as the Commissioner may direct shall be taken by the distiller in order to protect the liquor from serious contamination by the copper.

(*2*) There shall be no opening into any still, condenser or refrigerator, except—

(*a*) for connection with the wash backs or spirit receivers,

(*b*) properly secured air cocks or air valves of a number and description approved by the Commissioner.

(*3*) The distiller shall provide and maintain suitable and secure fastenings, wherever the Commissioner may deem necessary, to all stills, spirit receivers, vats and other receptacles, fermentation rooms, store-rooms, pipes, etc., to the satisfaction of the Commissioner, for the attachment of locks to be provided by Government. The keys of all such locks shall be retained by the officer in charge. The distiller shall attach his own locks to all rooms used for the storage of spirit and may, if he so desires, also attach his own lock to any other fastening but shall be bound immediately to remove such locks, when required by the officer in charge, to allow free inspection.

(*4*) The distiller shall, if the Commissioner so direct, provide between the stills and the spirit receivers a glass safe by which the quantity and strength of the spirits which are running will at any moment be visible to the operator, or a sampling apparatus so constructed that for every sample drawn off an exactly equal quantity shall be discharged into a closed and locked receptacle. If required, both a safe and sampling apparatus shall be provided. The distiller shall also, if so required, provide branch pipes fitted with locks by means of which spirits of different strengths and qualities may be diverted into separate receivers.

(*5*) The stills, receivers and vats shall be so arranged that the spirit may be conveyed from the receivers to the store-room through closed pipes. All pipes and all joints thereof shall be secured and sealed to the satisfaction of the Commissioner.

(*6*) All receivers and vats in the distillery must be so placed as to admit of the contents being accurately gauged or measured, and must be fitted to the satisfaction of the Commissioner with proper dipping rods, so adjusted to fixed dipping places that the contents thereof at each tenth of an inch of depth may at any time be ascertainable. The receivers and vats shall also be gauged in such manner as the Commissioner may, from time to

time, direct; and no vessel shall be used as a receiver or store vat until it has been gauged and the gauging has been checked by such officer as the Commissioner may appoint. Records of the dimensions of such vessels shall be maintained in accordance with rules prescribed by the Commissioner.

(7) Every cock kept or used in a distillery shall be of such pattern and constructed in such manner as the Commissioner may from time to time direct.

(8) The distiller shall cause to be painted with oil colour and shall keep so painted upon the outside of every room or place and upon a conspicuous part of every vessel and utensil the name of such room, place, vessel or utensil, according to the purpose for which it is to be used, and, when more than one room, place, vessel or utensil is used for the same purpose, he shall also paint a progressive number on each, beginning with the number one.

11. Spirit shall be stored in sound vessels. Each vessel shall bear a serial number, painted or cut thereon. Its external parts must also be clearly visible.

12. The distiller shall not cause or allow the dipping place or level of any vessel to be altered, or any device to be used to deceive the officer in charge in taking the guage of any vessel, or to prevent him from taking a true account of all wash or spirit in any vessel.

13. The materials, or bases, to be used in distilling country spirit shall only be of such descriptions as are generally approved by the Commissioner. All materials used must be of good quality, and no ingredients noxious to health shall be used in distillation or added to the spirit intended for human consumption.

14. (1) The distiller shall only distil wash which has been prepared within the distillery, and no wash (except spent wash from which all alcohol has been extracted) shall be on any account removed from or allowed to pass out of the distillery, except sealed samples forwarded by the officer in charge to the Chemical Examiner for Customs and Excise under the general or special orders of the Commissioner.

(2) Except with the written permission of the Commissioner, no wash or spirits not prepared or manufactured in the distillery shall be brought into the distillery.

(3) All wash made in the distillery shall be fermented in the wash backs and shall be conveyed directly therefrom into the still.

(4) Except with the written permission of the Commissioner, the distiller shall not redistil any spirits other than those which remain in the feints or weak spirit receiver attached to the still and which have not been removed therefrom.

15. The spirits manufactured in the distillery shall be distilled above or below such strengths, and shall be subject to such periodical analyses as the Commissioner may direct, and the contractor shall be bound to take steps to remedy any defects in his product which the Commissioner may consider material.

16. (1) The distiller shall give such notice in writing as the Commissioner may prescribe of the transfer of spirit from the spirit receivers to the spirit store-room and of wash from the fermenting vessels or wash backs to the still. He shall also state the percentage of proof spirit contained in the wash immediately before the distillation thereof. This percentage shall be determined by means of instruments approved by the Commissioner.

(2) The distiller shall comply with such orders as may be prescribed by the Commissisoner for the periodical stoppage of distillation for the purpose of ascertaining the quantity of spirit distilled from the quantity of wash passed into the still.

17. All spirit collected in the receiver shall be transferred or conveyed into the spirit store-room without unnecessary delay, provided that no spirit shall be so transferred between 6 P.M. and 6 A.M.

18. (1) All operations in a distillery, which require the presence of an Excise Officer, shall be stopped on Sundays and on such other holidays as may be prescribed by the Commissioner. The distiller shall also so arrange his operations in a distillery that no Excise Officer need be on duty for more than eight hours per diem. When distillation is carried on at night, and at all times when a Government officer is not present in the distillery, the distillery gates shall remain locked, provided that on Sundays and on holidays prescribed by the Commissioner the registered servants of the distiller may be allowed ingress and egress between sunrise and sunset.

(2) If it becomes necessary for any Excise officer to remain on duty at any distillery for more than eight hours per diem, or to do any work on behalf of the distiller on a Sunday or on any other holiday prescribed by the Commissioner as aforesaid, overtime fees for such duty or work may be realized from the distiller and paid to such Excise officer under such conditions as may be laid down by the Commissioner. The distiller shall give in writing twenty-four hours' notice of his intention to work the distillery on a Sunday or on a holiday prescribed by the Commissioner.

19. The distiller shall keep accurate and regular daily accounts showing—(1) the quantity and description of materials used, (2) the quantity of wash and spirit manufactured, (3) the quantity of wash used, (4) the quantity of spirit passed out, and (5) the quantities of wash and spirit in store. Under the last head the quantity of spirit remaining in stock in each cask, vat or other receptacle shall be shown. Such accounts shall be open at all times to inspection by the Excise officer in charge or other Excise officer authorized by the Collector, and by all superior Excise officers.

WAREHOUSES FOR SPIRIT.

20. Warehouses for the supply of country spirit to retail vendors may be established by the Commissioner at convenient places at the expense of Government. Each such warehouse shall be supplied with country spirit by the manufacturer or wholesale dealer within whose area of supply such warehouse lies and shall be in charge of an Excise officer. The Commissioner is authorized to allow spirit to be received into a warehouse from other sources than those abovenamed, if necessary.

21. Persons desirous of obtaining licenses to establish private warehouses for the deposit and storage of spirits without payment of duty shall apply to the Collector concerned, who will forward such applications for the orders of the Commissioner. Rules 2 to 4 shall apply *mutatis mutandis* to such applications, except that the cash deposit required in addition to the execution of the security bond pledging the premises, etc., shall not exceed Rs. 250.

22. As a general rule private warehouses shall be supervised by the ordinary establishment of the Excise Department, and the Collector shall arrange with the licensee of the warehouse the number of hours per day and of days per week on which the warehouse shall be opened for receipt or issue of liquor and for such operations as may be necessary. The time so fixed shall be posted up on the outer door or gate of the warehouse for the information of purchasers. Should it appear to the Collector at any time that a rearrangement of the work is rendered necessary, he will at once take steps to reduce or extend the number of hours and days during which the warehouse is to be opened. Any licensee of a warehouse, who is not satisfied with the hour fixed, shall be at liberty to have a whole-time officer posted at his own expense on payment to the Collector of such sum, not exceeding Rs. 150 per month, as the Commissioner shall from time to time direct.

23. Rules 5, 7, 8 and 9 shall apply *mutatis mutandis* to private warehouses, and rules 10 (6), 10 (7), 11 and 12 to all warehouses.

24. Every warehouse shall be under the joint lock and key of the officer in charge thereof and of the contractor, distiller or licensee of the warehouse or the authorized representative of the aforesaid persons. The lock used by the officer in charge shall be a Government lock, and the key shall remain in his personal custody.

25. No spirits shall be received into any warehouse unless accompanied by a pass from the officer in charge of the distillery or of the warehouse from which they have been transferred or by a special permit authorizing their receipt into the warehouse or, if the spirits be imported, by a permit from an officer duly authorized to grant permits for the transport of imported spirits.

26. Spirit intended for a warehouse shall be conveyed in sound and water-tight casks or approved metal vessels on which shall be painted in white oil paint in letters not less than 1 inch high, the number of cask or vessel, its capacity to the nearest tenth of a gallon and the name of the distillery or warehouse from which it has been issued. Marks other than those specified above shall be obliterated.

27. Immediately on arrival of a consignment at the warehouse, the officer in charge shall open the vessels and gauge and prove the spirit in each vessel. If any deficiency in excess of the quantity allowed by rule 28 below is found to have occurred in any vessel after measurement by such method as may from time to time be prescribed by the Commissioner, the whole contents of the vessel shall, if the contractor, distiller or licensee of the warehouse or the authorized representative of the aforesaid persons so desires, forthwith be measured by gallon-measures, and the quantity thus ascertained shall be accepted as correct. He shall then note the results in the prescribed registers, and also on the pass covering the consignment. One copy of the pass with the entries of receipt shall be immediately returned to the officer who issued the consignment, and the other copy with the entries thereon shall be kept in the warehouse.

28. (*1*) An allowance at a rate not exceeding the maximum quantities specified in the following scale shall be made for the actual loss in transit by leakage and evaporation, of spirit which is transported or exported under bond, by land, in wooden vessels, namely :—

	Maximum quantities of allowance. Per cent.
(*a*) for a journey of not greater duration than two days	2
(*b*) for a journey of duration exceeding two, but not exceeding nine days	3
(*c*) for a journey of duration exceeding nine, but not exceeding eighteen days	4
(*d*) for a journey of duration exceeding eighteen days	5

Provided that if, in any case, the temperature of the spirit on arrival at its destination is found to be lower than that when despatched, a further allowance shall be made, if necessary, of ·05 per cent. in a L. P. gallon, for every degree *Fahrenheit* of difference between the two temperatures, in addition to any allowance that may be made under this sub-rule.

(*2*) Wastages of spirit in excess of the quantities referred to in sub-rule (1), and all wastages in exceptional cases, shall be reported to the Commissioner for orders.

(*3*) The allowances to be made under this rule shall be determined by deducting from the quantity of spirit despatched, the quantity received at the place of destination, both quantities being stated in terms of L. P. gallons and shall be calculated on the quantity of spirit contained in each cask or other receptacle comprised in a consignment.

(*4*) Duty on a deficiency of spirit in excess of the allowances referred to in sub-rule (1) shall, if levied, be realized by the Collector of the district in which the distillery from which the spirit was sent is situated.

29. Spirit intended for a warehouse is conveyed thereto under bond, and at the sole risk and responsibility of the contractor, distiller or licensee of the warehouse. The bond is discharged when the spirit has been deposited in the warehouse and has been duly gauged and proved by the officer in charge and after the duty on the excess deficiency, if any, has been realized.

30. Spirit supplied to a warehouse shall be stored in casks or vats of wood or other material approved by the Commissioner. The contractor, distiller or licensee of the warehouse shall supply these articles, and all other appliances which may be required for the blending, reducing or issue of spirit, and shall bear the cost of storing, blending or reducing the spirit.

31. Casks or vats must be of such number and capacity and set up according to such design and marked in such manner as the Commissioner may, by general or special order, direct.

32. (*1*) Government warehouses shall be opened for eight hours daily, the hours of opening and closure to be fixed by the Collector except on Sundays and holidays, provided that in the case of urgent necessity the Collector or Sub-divisional Officer may direct that a warehouse shall not be closed on a particular holiday.

(*2*) In cases in which the licensee of a private warehouse pays for the establishment under rule 22, the warehouse shall be opened and closed at

such hours between sunrise and sunset as the Collector may consider reasonable, except on Sundays and holidays authorized by the Commissioner, when it will be closed except under special conditions prescribed by the Commissioner, and if opened on such days the officer will be entitled to overtime fees for the time worked on the requisition of the licensee; such fee shall be realized from the licensee:

Provided that the officer in charge of a warehouse shall not be required to attend at a private warehouse for more than eight hours on any day.

33. The contractor, distiller or licensee of a warehouse shall keep regular accounts in the warehouse showing the quantity and strength of spirits received in, issued from and remaining in the warehouse. Such account shall be open at all times to the inspection of the officer in-charge and of all superior Excise officers.

General Provisions relating to distilleries and warehouses.

34. The Commissioner may prescribe the minimum stock of spirit to be maintained in distilleries and warehouses established for the supply of country spirit to licensed retail vendors in specified areas.

35. Contractors, distillers or licensees of warehouses who desire to manufacture foreign liquor for sale shall take out separate vend licenses.

36. Manufacturers of foreign liquor shall take out separate compounding and bottling licenses in accordance with the rules framed therefor, if such operations are carried on. All processes connected with the bottling, flavouring, blending, reducing or colouring of foreign liquor shall be conducted under the supervision of the officer in charge in a separate building within the distillery or warehouse enclosure.

37. When it is known or suspected that saccharine or other matter of such a nature as to prevent the true strength being ascertained by means of the hydrometer, is present in spirit, the number of degrees to be added to the apparent strength on account of obscuration shall be certified by the Chemical Examiner for Customs and Excise on analysis of a sample of the spirit submitted to him, and duty shall be calculated on the quantity and strength of such spirit after the addition of the number of degrees of proof certified as necessary to be added to the apparent strength, as ascertained by the hydrometer.

38. (*1*) An account shall be taken by the Collector, Sub-divisional Officer or Superintendent of Excise of the stock of spirit in the distillery or warehouse at such intervals, not being greater than three months, and in such manner as the Commissioner may direct; and the contractor, distiller or licensee, as the case may be, shall pay to Government duty at the rate imposed under section 27 on spirit manufactured, imported or transported, as the case may be, on all spirit which may not be forthcoming and for which he shall be unable to account to the satisfaction of the Commissioner in excess of a wastage allowance of 1½ per cent.

(*2*) Wastage for the purpose of collection of duty on the excess as aforesaid shall be calculated annually, that is, at the end of the year for which the license is in force, but the contractor, distiller or licensee shall be called upon to explain any excess wastage and to adduce any evidence which he may desire to adduce in support of his explanation immediately after each occasion on which stock has been taken, and if it shall be proved to the satisfaction of the Commissioner, or of such officer as he may specify, that such deficiency in excess of 1½ per cent. has been caused by accident or other unavoidable cause, the payment of duty at the above rate on such deficiency shall not be required.

39. For taking periodical stock, the gauging of spirit in vats or casks may be done by dip-rod measurement, weighment, or by such other method as may be prescribed by the Commissioner. Whenever, by bung-rod measurement, the deficiency in any cask is found to be excessive, the whole contents of the cask shall be promptly measured by gallon measures and the actual deficiency accurately ascertained.

40. Government shall not be held responsible for the destruction, loss or damage, by fire, theft or any other cause whatsoever, occurring to any spirit stored in the distillery or warehouse or in gauging, weighment or proof. In case of fire or other accident, the officer in charge of a distillery or warehouse shall immediately attend to open it at any hour by day or night.

41. Smoking or the use by any person whatsoever within a distillery or warehouse of naked lights of any description is prohibited. Closed lanterns only shall be used.

42. Distilleries and warehouses shall be open only for the entrance and exit of persons who have business within them. Except with the permission of the Collector, the officer in charge or a superior officer of the Excise Department, no one except superior officers of other Government departments, contractors, distillers and licensees of warehouses, their servants, and licensed vendors who have come to purchase spirits, shall be allowed to enter the premises on any pretext. A register shall be kept of the names of all persons employed by contractors, distillers or licensees of warehouses, and all recognized employees will be supplied with passes for ingress and egress.

43. The officer in charge of a distillery or warehouse may eject and exclude from the premises any person whom he shall find to have committed, or to be about to commit any breach of these rules or of the provisions of the Act, or who shall be intoxicated, riotous or disorderly. All action taken by any officer under this rule shall forthwith be recorded by him in writing in his official diary for the information of his official superior.

44. Contractors, distillers and licensees of warehouses shall be bound by the provisions of the Act, and by all rules for the management of distilleries and warehouses or for issue of spirit therefrom which may be prescribed under the Act from time to time, and by all special orders which may be issued by the Commissioner regarding any particular distillery or warehouse, and shall cause all persons employed by them to obey all such rules.

45. If it comes to the knowledge of the contractor, distiller or licensee of a warehouse that any person employed by him in the manufacture, storage, receipt, blending, reducing or issue of spirits has committed any breach of the Act, or of the engagements entered into by him, it shall be his duty to report the matter to the officer in charge, and to comply with the directions of that officer respecting the continued employment of such person. The officer in charge shall report the matter together with the action taken by him to the Collector or Sub-divisional Officer.

46. (*1*) In case of any breach of these rules or of the conditions of the license, or in case of any attempt, by altering the capacities of receptacles or otherwise, to deceive the officer in charge in gauging or proving, either by the contractor, distiller or licensee of a warehouse, or by any person in his employment, the Commissioner is empowered to impose on such contractor, distiller or licensee of the warehouse a fine not exceeding the sum of Rs. 50 for every such breach of such rules or conditions, or, at the option of the Commissioner, to declare the money, if any, deposited with him or with the Collector forfeited, and to cancel the license.

(*2*) It shall be lawful for the Commissioner or for the Collector to deduct the amount of fines imposed under this rule from the sum deposited with him by the licensee as security for the due performance of the conditions of the license, and for this purpose the Commissioner or the Collector, as the case may be, may sell all or any of the Government promissory notes or stock notes deposited, or of the property hypothecated.

47. Any sum deducted by the Collector under the powers herein contained from the amount deposited by a contractor, distiller or licensee of a warehouse as security for his due performance of his engagements, shall be replaced within fifteen days from the date of receipt of a notice from the Collector, informing the contractor, distiller or licensee of such deduction having been made.

48. The imposition of a fine, or the forfeiture of deposit or the cancellation of the license under rule 46, shall not be held to prevent the prosecution of any person for any offence which may be committed against the provisions of the Act, or any other law for the time being in force relating to the excise revenue.

49. (*1*) Without prejudice to the procedure prescribed for recovery of dues by section 89 of the Act, all sums due to Government may be recovered from the amount of deposit made by the contractor, distiller or licensee of a warehouse, or by sale of the premises, stills, and other things pledged under the bond.

(*2*) On the expiry of the license, either on account of expiry of the term, or on account of cancellation or suspension, the Commissioner may

take over or permit the successor of the contractor, distiller or licensee of the warehouse, as the case may be, to take over the balance of liquor in the distillery at cost price, or may require the contractor, distiller or licensee of the warehouse, as the case may be, forthwith to remove all liquor remaining within the distillery or warehouse on payment of full duty.

(*3*) If he shall fail so to remove all spirits within ten days of the receipt of written notice from the Collector, the cost of any establishment which it may be necessary to employ at the distillery or warehouse may be recovered from the defaulter; and if he shall fail to do so within one month, the spirits shall be liable to forfeiture at the discretion of the Commissioner.

ISSUE OF SPIRITS FROM DISTILLERIES AND WAREHOUSES.

50. Spirits may be removed from distilleries or warehouses :—

I.—Under bond—

(*a*) for export by sea ;
(*b*) for transport to another distillery or warehouse ;
(*c*) for export to other British provinces when specially permitted by the Commissioner.

II.—On payment of duty—

(*a*) for local consumption or use ;
(*b*) in the case of foreign liquor, for export by land to foreign territory, Native States or other provinces ;
(*c*) after denaturation under the prescribed rules therefor.

III.—Without payment of duty and without bond, if issued to officers of Government empowered to purchase or remove them on the public service.

51. No spirit shall be removed from any distillery or warehouse unless it has been gauged and proved by the officer in charge. If removed on payment of duty, the gauging must be by actual measurement or by weighment; if removed under bond, the gauging may be by bung-rod.

52. 142. Licensed brokers shall be entitled to realize brokerage from the purchasers for whom they act at a rate not exceeding two rupees per maund on the quantity purchased. They are forbidden on pain of cancellation of their license to realize or to attempt to realize any sum from the cultivators, whether on account of brokerage or under any pretext whatsoever, or to obtain or to attempt to obtain from them a refund of any part of the amount paid to them on account of the price of *ganja* purchased.

143. The Supervisor shall not interfere with the parties in the sale and purchase of *ganja*, and every facility shall be afforded by him for the inspection of the *ganja* and its removal when sold.

144. When any *ganja* is transferred by sale, the seller shall deliver to the purchaser a delivery order, and the purchaser shall not be allowed to remove the *ganja* unless he produces this order.

145. (*1*) Rent shall be levied at the rate of Re. 1-2 per maund on the quantity of *ganja* sold, and irrespective of the length of time for which the *ganja* may have been stored. The rent shall be paid by the purchaser in every case at the time of the removal of the drug.

(*2*) *Ganja* purchased but not removed for export may, at the discretion of the Sub-divisional Officer of Nangaon, be allowed to remain in the public warehouse set apart for the purpose; but the wholesale vendor shall be liable to pay additional rent for the accommodation at the rate of annas two per maund per diem, subject to a maximum of annas eight per maund. unless the Sub-divisional Officer is satisfied that the delay in removing the consignment is not due to any default on the part of the wholesale vendor.

146. (*1*) Purchasers shall, as far as possible, pay the owner of the *ganja* the price thereof at the time of purchase. The fact of such payment, if made, shall be noted in the delivery order and attested by the owner of the *ganja* in the presence of the Supervisor. In case the whole or any part of the

price is not paid at the time of purchase the parties shall agree upon a date, not more than one month from the date of export, in the presence of the Supervisor, upon which payment shall be made, and shall note the same in the delivery order. Payment shall be made on the date so fixed in the presence of the Supervisor and the fact shall be recorded by him in the prescribed register.

(2) In the event of any part of the sum due remaining unpaid for more than one month from the date of export, the Sub-divisional Officer may debar the defaulter from making any further purchases until all sums due from him have been paid in full.

147. A person holding a pass for the import of *ganja* into another province or a licensed vendor of the Presidency of Bengal holding a pass for the transport of *ganja* from Naugaon, whose original pass has been lost or destroyed after his transactions at Naugaon have been endorsed thereon, may, on payment of a fee of Rs. 2, be granted an authenticated copy of the entries in the *ganja* office weighment register which will have the force of the original pass.

148. All refuse resulting from the process of cleaning *ganja* shall be removed from the warehouse enclosure at the cost of the wholesale vendor, and shall be destroyed under the supervision of the Supervisor and in the presence of the warehouse clerk concerned and of the jemadar of the guard, in such manner as the Collector may from time to time direct.

149. (1) The Supervisor shall verify the whole of the *ganja* in stock by counting the bags at the end of each month, and at the end of June and December in each year shall verify the balance of *ganja* in stock by weighment. Certificates of such verifications shall be submitted to the Collector of Rajshahi in the prescribed form within the first week of the following month.

(2) The Superintendent of Excise shall verify by weighment the balances of 2 per cent. of the cultivators selected at random during each of his half-yearly inspections, and the Sub-divisional Officer shall once a quarter similarly verify the balances of 1 per cent. of the cultivators, and certificates of such verifications shall be submitted to the Collector.

Storage of Ganja *and* Bhang *in District Warehouses.*

150. (1) Where there is a warehouse provided by Government, a wholesale vendor shall store therein all *ganja* and *bhang* purchased by him, and shall pay such rent for the use thereof as may be fixed by the Collector.

(2) Where there is no warehouse provided by Government the wholesale vendor may store his *ganja* or *bhang* in a private warehouse provided that the Collector is satisfied that the warehouse is in a situation convenient of access to Excise officers and so constructed that any *ganja* or *bhang* stored in it shall be perfectly secured against fraud or depredation.

(3) A license shall remain in force only up to the end of the year in which it is issued, and shall not be renewed except on application duly made to the Collector, who may, in his discretion, decline to renew it.

151. A warehouse shall be under the joint lock and key of the officer in charge thereof and of the whole-sale dealer or dealers, or the authorised representative of the aforesaid person or persons. The lock affixed by the officer in charge shall be supplied by Government, and the key shall remain in the personal custody of the officer in charge.

152. No warehouse license shall be granted in the districts of Rajshahi, Dinajpur, Jalpaiguri, Rangpur, Bogra, Pabna or Malda to any licensed cultivator of *ganja* or *ganja* broker.

153. (1) The Superintendent of Excise, or such other officer as may be authorised by the Collector in this behalf, shall, before allowing *ganja* or *bhang* to be stored in the warehouse, ascertain by personal inspection of the consignment and by weighment that the seals of the bags or chests are not broken and that the gross weight of each bag or chest corresponds with that noted in the pass. He shall open each bag or chest, examine the condition of the *ganja* or *bhang* and ascertain if it has in any way been tampered with.

(2) If the weight should disclose a deficiency in the gross weight of the consignment, and if the wholesale vendor should object to pay duty thereon on the ground that the deficiency is in the weight of the bags or chests and not of the *ganja* or *bhang*, the officer conducting the weighment shall, if the

goladar so desires it, weigh the *ganja* or *bhang* and the bags or chests separately. He must then reseal the bags or chests.

(*3*) If the covering of any bag or chest appears to have been tampered with, or if any bag or chest be received without the original seal or if the gross weight as ascertained by actual weighment be less than that given in the invoice by one seer, the officer in charge of the warehouse shall at once cause the *ganja* or *bhang* in the bag or chest to be weighed. He shall examine the *ganja* or *bhang* in such bag or chest with special care and, if there is reason to believe that the bag or chest has been tampered with, shall immediately report the case to the Collector with a view to the institution of proceedings for its confiscation should the Collector so see fit. The full duty must at once be levied on any deficiency in weight.

(*4*) Such deficiency shall ordinarily be calculated on the total weight of *ganja* or *bhang* in each consignment, and not on the weight in each bag or chest, compared with the entries in the pass. But it shall be open to the Collector to order that any bag or chest which appears to have been tampered with shall be separately dealt with and that any dust or foreign matter which may appear to have been fraudulently introduced shall be separated from the *ganja* or *bhang* before the weighment of the latter with a view to ascertaining the deficiency.

(*5*) If there be any increase of weight, the full quantity delivered, including such increase, shall be entered in the stock registers.

(*6*) No allowance shall be made on account of wastage or dryage in transit from the public warehouse to licensed wholesale warehouses or from one licensed wholesale warehouse to another.

154. (1) Stock shall be taken by the Collector or, in a subdivision, by the Sub-divisional Officer, or by the Gazetted Officer deputed by the Collector or Sub-divisional Officer, in each warehouse between 25th and 31st March, and to avoid complication of accounts no *ganja* or *bhang* should be issued from any warehouse from the day of weighment to 31st March. In cases in which the whole of the *ganja* and *bhang* fit for use is disposed of in the middle of the year, and the *goladar* relinquishes his license, the account of his warehouse may be closed within the year.

(2) All the bags or chests shall be opened and the *ganja* or *bhang* taken out, and the *ganja* or *bhang* classified as unfit for use, if any, should be separated. The request of a *goladar* to classify any *ganja* or *bhang* as unfit for use should ordinarily be accepted. The *ganja* and *bhang* fit for use, that unfit for use and refuse, respectively, shall be separately weighed, and the *ganja* and *bhang* fit for use replaced in sealed bags. The *ganja* or *bhang* classified as unfit for use and the refuse, if any, must be destroyed on or before 31st March, with the approval of the Collector, in the presence of the Superintendent of Excise or Sub-divisional Officer or other Gazetted Officer deputed to take stock, and written off the account on or before 31st March. The officer in whose presence *ganja* or *bhang* unfit for use and refuse is destroyed shall record a certificate that this has been done.

(3) The wholesale vendor shall be responsible for any deficiency in excess of 2½ per cent., and duty at the rate imposed under section 27 of the Act shall be realised on such deficiency on or before the 31st March. *Ganja* or *bhang* transported to the warehouse of another wholesale vendor within one month of the date on which it was stored shall be excluded when calculating the allowance for wastage to be made to the wholesale vendor from whose warehouse such *ganja* or *bhang* was transferred.

Collector sees fit, of forfeiting his license, to buy the said article at such price as the Collector may adjudge, and in any quantity not exceeding that which the Collector may determine to be ordinarily saleable by him in fourteen days:

The Collector shall not allow such transfer, or sub-lease, unless good and sufficient reason be shown to his satisfaction, and unless the transferee or sub-lessee is, in his opinion, fit and qualified to hold such license.

208. The names of partners (if any) shall be disclosed at the time of settlement and it shall be open to the Collector to refuse to settle a shop with a number of partners. The admission of any person to partnership after settlement shall be deemed to be a partial transfer and shall not be made except under the provisions of rule 207.

209. On the death of a licensee, the Collector may renew the license on the same terms in favour of a representative of the deceased, if he be satisfied that such representative is fit to hold it, and on the condition that any arrears

due from the deceased licensee are recovered before the license is so renewed. In such case no fresh deposit need be called for.

FURTHER RESTRICTIONS UNDER WHICH AND CONDITIONS ON WHICH LICENSES, PERMITS AND PASSES ARE GRANTED.

210. The holder of a license, permit or pass shall be bound by the conditions thereof, and on the expiry of a license, permit or pass the holder thereof shall return the same to the officer who granted it, or, if the conditions thereof provide for its disposal in some other manner, shall dispose of it in accordance with such conditions.

211. No licensee shall sell an excisable article at any place other than on the premises specified in that behalf in his license.

212. No licensee shall wilfully adulterate or add anything to cause the deterioration of any excisable article sold or kept for sale by him. He shall not sell any excisable article which he knows to have been adulterated or to have deteriorated, and shall not store such article or permit such article to be stored on his premises.

213. Every licensee shall keep his licensed premises open during the prescribed hours, throughout the currency of the license, unless their temporary or permanent closure is authorized. He shall, in respect of any article which he is licensed to sell, meet the demand of every customer entitled to be served who tenders payment for what is required by him, and he shall maintain such supply of all articles in which he is licensed to deal as the Collector may consider sufficient to meet local requirements. Where country spirit is issued at more than one strength a stock of the weaker strength shall invariably be maintained.

214. Subject to the provisions of rule 223, the holder of a license shall have no legal claim against Government for compensation for any loss alleged to be due to a change during the currency of his license in the conditions thereof, in the rate at which duty is charged on any excisable article, or in any other matter connected with the Excise administration.

215. Any transaction of the nature of gift or loan between the holder of a license, permit or pass and an officer of the Excise Department is absolutely prohibited.

216. No licensed retail vendor of foreign or country liquor shall hold any professional entertainment or dance on or near his premises, or permit the playing of musical instruments or singing by professionals on such premises without the special sanction of the Collector in writing.

217. No licensed retail vendor of foreign or country liquor shall possess on his licensed premises any quantity of *kuchila*, aconite or *dhatura*.

218. Except in the Calcutta district, the holder of a license for the vend of foreign liquor shall report to the Collector the arrival of a consignment of such liquor within seven days of its receipt and at least 48 hours before it is opened, stating the description and quantity of such liquor received.

219. The holder of a license for the retail sale of foreign liquor for consumption off the premises shall not sell such liquor except in sealed and capsuled bottles, having their seals and capsules intact, and having a capacity of at least one full reputed pint, and shall not alter either the nature of the liquor or the labels under which he purchased it; Provided that bottles opened by a competent Excise officer for purposes of test may, if resealed by such Excise officer, be sold by the holder of the license.

220. In areas in which bottled spirit can be obtained from the wholesale supplier of country spirit, if a licensed retail vendor of country spirit is suspected of watering, adulterating, or drugging the spirit sold by him, the Collector may order him to maintain a sufficient stock of spirit of any specified strength in bottles to be sold with their seals and capsules intact, and such vendor shall comply with any such order issued to him and shall permit his customers the option of purchasing in such bottles instead of by the standard measures if the latter have been prescribed. In such cases the vendor shall be allowed to exceed the maximum retail price (if prescribed) by the amount of the extra cost of obtaining bottled spirit.

221. No licensed retail vendor of country spirit shall keep in his shop any measure other than the measures prescribed by the Commissioner under section 24. In the Calcutta District retail vendors shall measure the liquor by these measures on the demand of the purchasers. Elsewhere sales to consumers shall only be made by means of such measures, provided that if

the vendor is required by an order under rule 220 to keep a stock of spirit in sealed and capsuled bottles, or if the spirit be obtained from the wholesale supplier in such bottles, customers shall be permitted the option of purchasing in such bottles instead of by the standard measures.

222. The quantity of *cocaine* which licensed vendors, medical practitioners, dentists or managers of hospitals or charitable dispensaries not under Government supervision shall be allowed to possess shall be fixed in each individual case by the Commissioner in consultation with the Collector and be entered in the license or permit.

223. All medical practitioners, dentists or managers of hospitals or charitable dispensaries not under Government supervision who hold licenses, or permits for the possession of *cocaine*, shall keep an account of all *cocaine* received and used by them and shall at all times afford every facility for the inspection of such account and of their stock of *cocaine* by the Collector, the Civil Surgeon, the Superintendent of Excise or any officer authorised by the Collector or the Civil Surgeon to inspect the same.

PAYMENT OF COMPENSATION FOR CLOSURE OF SHOPS.

224. When any shop for the vend of any excisable article is closed under section 26 of the Act, for the preservation of the public peace, or under rule 203 on account of the march of troops, compensation for such closure may be paid in cash to the licensee, as stated below:—

(1) The compensation will be paid by the Collector with the previous sanction of the Commissioner.

(2) No compensation shall be paid when a shop remains closed for less than six hours. Closure for six hours or more shall be held to be a closure for the whole day.

(3) When a shop, licensed for the vend of an excisable article upon which no duty is imposed under section 27 of the Act, is closed, the compensation shall be calculated on the monthly fee payable for the license, and shall be a sum equivalent to the amount payable for the days during which the shop remains closed *plus* 10 per cent. of that amount for loss of profits.

(4) When a shop licensed for the vend of an excisable article upon which duty is imposed under section 27 of the Act, or under the Indian Tariff Act, 1894, is closed, the Collector shall calculate the average daily sale in the shop, based on the sales during the previous months of the year, and the profit of the vendor on such daily sales after deducting from the average total sale-proceeds the amount of the average daily license fees, the duty, the cost price and contingent expenses at 6¼ per cent. of the sale-proceeds. Compensation shall then be granted at the rate of such daily profit for the number of days during which the shop remains closed.

TIME, PLACE AND MANNER OF PAYMENT OF DUTY.

225. The duty imposed on —

(*i*) Foreign liquor and country spirit:—

(*a*) imported under bond, or

(*b*) manufactured in a distillery,

and stored in a distillery or excise warehouse.

(*ii*) *Ganja*—manufactured at Naugaon and stored in an excise warehouse.

(*iii*) *Bhang*—imported under bond and stored in an excise warehouse,

shall be paid before removal from the distillery or excise warehouse unless a bond has been executed for such payment.

226. The duty imposed on *ganja* exported by sea, or on *ganja* and *bhang* exported to the States of Hill Tippera, Nepal, Bhutan, Sikkim or the French territory of Chandernagore shall be paid before issue of such *ganja* or *bhang* from the excise warehouse where it is stored.

227. Half of the duty imposed on *charas* to be imported shall be paid at the time of application to the Collector and half after examination in the importing district and before it is made over to the importer for sale.

228. When the duty on an excisable article is to be paid before removal from a distillery or excise warehouse, the payment must be made

into the local treasury, or a treasury approved by the Collector of the district in which such article is to be sold or consumed, either by direct payment or by money-order. Advance deposits on account of duty may also be made with the permission of the Collector.

DESTRUCTION OF EXCISABLE ARTICLES DEEMED TO BE UNFIT FOR USE.

229. *Ganja* or *bhang* stored in a warehouse and deemed by the Collector to be unfit for use shall be destroyed at the end of the year, after the annual stock-taking and closure of accounts, provided that any *ganja* in the public warehouse at Naugaon left unsold, shall, with the sanction of the Collector, if considered unfit for use, be destroyed after two years from the date on which it was stored. Such destruction will take place in the presence of the Supervisor or one of his assistants. If any *ganja* deposited in the public warehouse at Naugaon be at any time before the expiration of two years considered by the Collector as unfit for use, it shall be liable to be destroyed in the same way with the previous approval of the Commissioner.

230. If spirit manufactured in a distillery or stored in a warehouse is found to be of inferior quality or otherwise unsuitable for the purpose for which it was made or stored, it may be rejected and destroyed, or otherwise dealt with under the orders of the Commissioner. Officers in charge of distilleries and warehouses are empowered to stop, pending the orders of the Commissioner, the issue of spirits which they consider bad or unsuitable and are required to send samples of such spirit for analysis without delay.

231. Any excisable article kept on the premises of a vendor licensed to sell such article and found after necessary examination to be unfit for human consumption may be destroyed under orders of the Collector.

DISPOSAL OF THINGS CONFISCATED UNDER THE ACT.

232. When in any case a Magistrate orders the confiscation of any thing under section 64 of the Act, such thing shall be made over to the Collector or Sub-divisional Officer for disposal.

233. The disposal of things confiscated by order of a Magistrate or of a Collector, shall be regulated as stated in the following rules.

234. The sale or other disposal of things confiscated under the Act shall be deferred till the period of appeal against the order of confiscation has expired, or if an appeal be made against such order till the appeal is disposed of :

Provided as follows :—

(*1*) The sale of any animal or other thing ordered to be confiscated shall not be so deferred unless the owner or his agent deposit with the Collector or Sub-divisional officer, as the case may be, such sum as that officer may consider to be required and to be sufficient for the keep or safe custody of such animal or other thing pending the result of such appeal, and

(*2*) if the thing be of a perishable nature it may be sold immediately.

235. (*1*) If any order of confiscation of anything be reversed on appeal, such thing, or the sale-proceeds thereof, and the amount, if any, deposited for the keep or safe custody of such thing shall be at once returned to the owner thereof, or his agent, under the order of the Collector or Sub-divisional Officer, as the case may be.

237. Confiscated country spirit, *ganja*, *bhang* and *charas* shall be sold by auction subject to a reserved price which shall be equal to the amount of duty leviable on the article in the place in which the sale takes place. If such price be not obtained, the article shall be destroyed.

238. Confiscated cocaine, when found fit for use, shall be used for the public service in accordance with instructions specially issued from time to time in that behalf; when not fit for use, it shall be destroyed by a Gazetted Officer, who shall certify under his own hand on the original record of the case that this has been done.

239. Confiscated excisable articles other than those referred to in rules 236 to 238 shall be sold by auction to the highest bidder. If there is no bid they shall be destroyed.

240. When the highest bidder for any confiscated article sold under rules 236, 237 or 239 is not a licensed vendor of such article, and the quantity thereof is more than the quantity fixed as the limit of a retail sale under section 5 of the Act, the Collector or Sub-divisional Officer as the case may be may, in his discretion, grant to such person a permit under section 19 of the Act to possess, but not to sell, the article, or may refuse to accept the bid and may accept another bid or may order the article to be destroyed.

241. When the article confiscated is not an excisable article, it shall be disposed of as follows:—

(*i*) When such article in the opinion of the Collector does not exceed Rs. 1,000 in value, it may be sold by the Collector to the highest bidder or in his discretion released on payment of such sum as he may think fit, or, with the sanction of the Commissioner, retained for the use of the Excise Department.

(*ii*) When such article, in the opinion of the Collector, exceeds Rs. 1,000 in value, it shall be disposed of at the discretion of the Commissioner, who may in special cases refer the matter to the Local Government for orders.

Provided that, during a period of one month from the 1st April 1915 any failure to comply with these rules, so far as they relate to the construction or use of heavy motor-cars or trailers, shall not be deemed to be a breach or contravention of the rules, if the failure occurs solely in relation to a car registered before, or to a trailer which is in use on the 1st April 1915.

Temporary cancellation of registration

4. (*2*) Not more than one trailer shall be drawn by any motor-car :

Provided that the Commissioner may, by order, for special reasons to be recorded by him, permit more than one trailer to be drawn by any such car upon such conditions (if any) as may be specified in such order.

Marking of trailer.

10. The owner of every trailer shall cause to be printed or otherwise plainly marked on a conspicuous part of the right or off side of the trailer, in letters and figures not less than one inch in height, and of such shape and colour as to be clearly legible and clearly distinguishable from the colour of the ground whereon the said marking is made,—

and shall cause the said marking to be from time to time repaired or renewed, as often as may be necessary to keep the said letters and figures clearly legible and clearly distinguishable.

Axle-weight of trailers.

11. The axle-weight of an axle of a trailer shall not exceed four tons.

Power of Commissioner or his office to ascertain axle-weight of heavy motor-car or trailer at any time.

12. (*1*) Whenever the Commissioner, or any officer duly authorized by him in this behalf, has reasonable ground for suspecting that the axle-weight for the time being of any axle of any heavy motor-car or trailer drawn thereby exceeds the registered or marked axle-weight of that axle, he may—

(*a*) require the person driving or in charge of the car to drive the car, or cause it to be driven, with or without the trailer, to a weighing machine, and

(*b*) cause the axle-weight for the time being of any such axle to be ascertained.

Diameter of wheels of heavy trailers.

14. Rule 6 shall apply to every trailer exceeding one ton in weight when unladen, the wheels of which are fitted with tyres which are not pneumatic nor made of a soft or elastic material.

PART IV.—Motor-cabs ("Taxis").

1. For the purpose of these rules a "motor-cab" or "taxi-cab" means a light motor-car, as defined in Part I, which stands or plies for hire in any public place.

2. No light motor-car shall stand or ply for hire unless it is registered as a motor-cab. The registration of every motor-cab shall be renewed once every twelve months and no motor-cab may be used unless it holds a subsisting certificate.

3. On the registration of a motor-car as a motor-cab, a certificate of registration shall be granted by the Commissioner of Police.

4. Notwithstanding anything to the contrary in sub-rule (*3*) of rule 1 in Part II of these rules the fee payable for the first registration of a motor-car which is intended for use as a motor-cab shall be Rs. 16 and the fee payable for every re-registration of such a car shall be Rs. 8.

5. (*1*) A license to drive a motor-cab shall be in a form prescribed by the Commissioner of Police.

(*2*) The driver named in the license shall at all times when on duty with a motor-cab wear in a conspicuous position a metal badge to be supplied by the Commissioner of Police bearing the number of the license, such badge to remain the property of the Commissioner, and to be surrendered if the license is suspended or cancelled for any reason or on the expiry of the same.

(*3*) All changes in the licensee's address shall be at once notified to the Commissioner of Police by a written notice signed by the holder of the license, and quoting the number and date of the license.

(*4*) Neither the license nor the badge above referred to shall be transferred or lent to any other person under any circumstances whatever.

(*5*) A fee of Rs. 10 shall be paid to the Commissioner of Police on the issue of the license. No extra charge shall be made for the badge. If the license be suspended or cancelled for any breach of the rules or the conditions herein contained, a fee of Rs. 10 shall be payable when the license is re-issued or a new one granted.

(*6*) The license shall be in force for one year from the date of issue, and be subject thereafter to renewal annually on payment of Rs. 2.

(*7*) The holder of a license to drive a taxi-cab is entitled on application to receive also a license to drive a light motor-car without further examination or payment of fees.

6. An applicant for a motor-cab driver's license under these rules shall, before receiving such license, satisfy the Commissioner of Police that he is acquainted with the principal places and streets in and around Calcutta and Howrah, that he has a thorough knowledge of the prescribed rates for hire and that he is in all respects a fit person to be the driver of a motor-cab.

7. For any breach of these rules any motor-cab driver's license may be cancelled or suspended or otherwise dealt with by the Local Government.

8. (*1*) No motor-car shall be used as a motor-cab, unless it is fitted with a taxi-meter or other approved mechanical device for automatically and visibly registering on each occasion the fare to be charged according to the rates for distance or time or a combination of distance and time. The taxi-meter must be fixed to and operated from a "non-driving wheel." Every taxi-meter when in use shall be locked and sealed, so that it may not be tampered with.

(*2*) Every taxi-meter shall be fitted with an indicator or handle in the form of a flag on which shall be printed the words "for hire." The taxi-meter shall be so constructed that when the indicator is vertical the taxi-meter shall be out of action. Such indicator shall be so placed as to be clearly visible to any person outside of and in front of the vehicle, and to the hirer when inside.

(*3*) The vertical position shall indicate that the vehicle is available for hire, and no driver shall without reasonable excuse refuse to accept a fare when the indicator is in the vertical position.

(*4*) Any owner, driver, attendant or other person who shall break or tamper in any way with the seal placed on the taxi-meter, or who shall, with intent to deceive, tamper with the taxi-meter or the driving mechanism thereof, shall be deemed to have committed a breach of this rule.

9. Every taxi-meter referred to in rule 8 shall, after it is affixed to a motor-cab, whether for the first time or after repair or other readjustment, be submitted to the Commissioner of Police, or to such officer as he may empower in this behalf for the purpose of examination as to correctness of fittings, and of subjection to a practical road-test over a measured distance of one mile and a time-test of not less than half an hour. If found to be correct, the taxi-meter and its fittings shall then be sealed to the motor-cab in such a manner that it cannot be removed or tampered with without the seals being broken or removed.

10. Every taxi-meter shall, at the end of each period of six months (the first of such periods commencing from the date of the test referred to in rule 9), be submitted to a test similar to that prescribed by rule 9:

Provided that every taxi-meter shall, at any time, if so required by the Commissioner of Police, be submitted to him or to such officer as he may empower in this behalf, for the purpose of undergoing such test or any portion thereof.

11. The owner of every motor-cab shall cause to be kept in the cab, for the inspection of the public, a register in which the testing officer referred to in rule 9 shall, after each of the tests prescribed in rules 9 and 10, enter the date and result of such test.

12. Every motor-cab shall be provided with a light so placed as to illuminate the taxi-meter at night.

13. In every motor-cab there shall be available for the inspection of customers a list of rates, and the fare charged for the hire of the motor shall not exceed the maximum fare calculated according to the scale of such of the said rates as may be applicable.

14. The driver of every motor-cab shall, as soon as he is hired and no sooner, set the taxi-meter in motion, and upon the termination of the hiring shall immediately stop the same. If he neglects or fails to do so, he shall be deemed to have committed a breach of this rule. But if a motor-cab is called from a garage or a stand to take up a passenger at any place less than 500 yards from the garage or stand, the taxi-meter shall not be set in motion until the motor-cab shall arrive at such place and be ready to take up the passenger:

Provided that in the event of a motor-cab whilst hired being unable to proceed from any mechanical derangement or tyre failure, either temporarily or otherwise, the driver shall at once stop the mechanism of the taxi-meter as against the hirer, and shall not re-start the same until such time as the defect is remedied.

15. A driver of a motor-cab shall, in the absence of reasonable cause to the contrary, proceed to the destination named by the hirer and by the shortest and quickest route.

16. The brakes of a motor-cab shall be so affixed as to be capable of easy application. At least one brake shall be so made as to be applied by the foot of the driver, and at least one shall act directly upon the road wheels.

17. All brake and steering connections secured with bolts shall have such bolts secured with nuts, the same to be locked or pinned.

18. Every motor-cab shall be capable of being readily steered, and able to turn on each lock and to proceed in a contrary direction within a roadway not more than 30 feet wide from kerb to kerb:

Provided that the Commissioner of Police may, in his discretion, grant a certificate of registration as a motor-cab to a motor-car intended for use as a motor-cab, if such car is capable of turning within a reasonable space over and above the said space of 30 feet.

19. The wheel-tracks of the front and the rear wheels must, so far as is possible, coincide (*i.e.*, the wheel-track of the rear wheels must be the same as the wheel-track of the front wheels); and in no case shall the width of the front wheel-track be less than that of the rear wheel-track or the wheel-tracks vary by more than 2½ per cent. of the width.

20. All the underparts of a motor-cab inside the pivots of the front axle and steering arms (which must be placed as near as possible to the road wheels), as far back at least as the rear axle, must clear the ground at least 10 inches, sufficient allowance in addition being made to provide for the wear of the tyres, set of springs and other causes of lessened height, so that the minimum clearance of 10 inches is at all times maintained.

21. It shall be the duty of the owner to see that all parts of the mechanism of the car are periodically inspected and kept in proper working order, and a register shall be kept of such inspections in a convenient form giving such particulars as the Commissioner of Police may prescribe. This register shall be open at any reasonable time to the inspection of the Commissioner of Police or any person duly authorized by him in that behalf. Any failure to maintain this register or to produce it when called for by lawful authority shall be deemed to be a breach of this rule.

22. In every motor-cab the machinery shall be so constructed that no undue noise or vibration is caused, and shall be maintained in such condition at all times.

23. Carburetters must not, in any motor-cab, be placed in close proximity to magnetos or to connection of wires carrying an electric current, unless such magnetos and wire-connections are respectively screened off or encased in a suitable manner.

24. A second tap shall be provided between the tank and the carburetter, and shall be so constructed that it can be shut off or turned from the exterior of the car. Every motor-cab shall also carry some particular form of efficient fire-extinguisher.

25. No oil shall be allowed to drop upon the roadway, and where a tray or undershield is fixed below the mechanism of the car for the purpose of preventing this or for any other purpose, such tray or undershield shall be so placed or constructed that no petrol from the tank, supply pipe or carburetter can collect therein.

26. Tanks for petrol must be so placed that any overflow shall not fall on or soak into cushions, upholstery or floor mats in or about the body and the filling nozzle shall be brought to and permanently fixed to some point outside the body. No petrol shall be poured into the tank whilst the engine is running or whilst any lamp other than an electric lamp is burning in or on any portion of the car.

27. Effective means shall be provided in every motor-cab for preventing the heat of the motor or of the exhaust pipe connections from injuriously affecting other parts of the cab or interfering with the comfort of passengers. All wires carrying electric current must be properly insulated and protected from injury, and so placed that they cannot be a source of danger.

28. The outlet from the silencer shall not, in any motor-cab, be so placed as to project the exhaust directly on to the road, or be so placed or directed as to alarm horses that may be immediately behind the cab.

29. Every motor-cab shall have at least one driving wheel fitted with an approved means of preventing or limiting side slip, and shall carry at least one spare inflated tyre and rim or other approved device which can, if necessary, be quickly fitted to any wheel.

30. Every motor-cab shall be provided with a means of communication between passenger and driver.

31. Every motor-cab shall be provided with adequate means for the conveyance of a reasonable quantity of luggage, and with a sufficient number of chains, straps or other means of securing such luggage. No luggage shall be carried on the roof of the cab, unless there has been affixed thereto a guard rail of a type approved by the Commissioner of Police or by such officer as he may empower in this behalf.

32. Where acetylene or other gas is used to light the carriage, the cylinders or vessels which contain the gas or in which it is generated must be fixed outside in such a position as to minimize the danger of accidental ignition.

33. No celluloid or xylonite fittings shall be placed inside or outside any motor-cab:

Provided that this rule shall not apply to the inside of the accumulators contained in such cab.

34. No printed or written matter other than the sanctioned rates for hire or these rules shall appear on the outside of a motor-cab or be carried by way of advertisement. Small advertisements of a pattern to be approved by the Commissioner of Police may, however, be exhibited within the cab.

35. The cushions of the seats in every motor-cab shall be covered and stuffed with suitable material to be approved by the Commissioner of Police or by such officer as he may empower in this behalf.

36. The doors, windows, seats, roof, springs, wheels, cushions, linings, panels, etc., and all furniture and appointment of a motor-cab, shall be in proper order and repair, the paint and varnish in good condition and the inside perfectly clean. The floor shall be covered with a mat of rubber, coir or other suitable material.

37. The Commissioner of Police may prohibit the use of a motor-cab which is in his opinion unfit to ply for hire until such time as the defects are remedied to his satisfaction.

A certificate from the proprietor of the vehicle, stating that there has been no alteration in the design of the machinery since the previous inspection and date covered by the maker's or importer's certificate, must be presented with each omnibus submitted for renewal of registration. Should any alteration be made, full particulars of such must be stated and the same course of action may be required as for a first inspection.

10. Should it be deemed necessary, an expert, accepted by both parties, shall be employed to advise. The fee for the expert examination must be deposited by the proprietor with the Commissioner, which fee will be returned if the vehicle be passed without any alteration being required.

11. (1) When making application for the vehicle to be inspected the proprietor must specify the route or routes upon which and the hours between which he intends the vehicle to ply, and these routes may not be departed from except after due notice has been given to the Commissioner, and his permission obtained in writing.

1. Every vessel, entering or passing along any of the above lines of navigation, shall be liable to measurement for the purpose of ascertaining the amount of toll the vessel should pay according to the schedule of rates authorised by Government to be charged on the line of navigation.

(*c*) In calculating the amount of toll to be levied, any portion of 100 maunds less than 10 maunds is to be omitted.

The number of days so allowed without additional payment shall be calculated at the rate of one day for every eight miles, or portion of eight miles, to be traversed, together with one day for every 200 maunds of measurement In the case of rafts, one day for every five miles shall be allowed.

4. Toll may be paid at the first station, either for the entire number of toll-stations on the line of navigation or for any less number of stations.

5. The tickets thus given may be demanded for inspection by any duly authorised navigation officer, and must be kept on board and at hand for that purpose. They must be shown at each toll-station the vessel has to pass as a passport that no further payment of toll is to be demanded. The tickets shall be delivered up at the last toll-station.

Navigation officers shall have authority to check-measure vessels whenever they consider it necessary, and if the toll due according to the check-measurement exceeds that originally paid, the difference shall be payable at the toll-station of check-measurement, or at the next toll-station at which the vessel may arrive if the check-measurement was made at some point other than a toll-station. The officer collecting the difference shall endorse the ticket showing the measurements, and note the amount recovered in excess of the toll originally paid.

6. Owners or hirers of vessels may compound, by the payment of a fixed sum, for the use of the whole or any portion of the canals or any period that may be agreed upon, not exceeding one year. In such case the vessel shall be furnished with a ticket showing the amount of toll paid, the period for which the toll has been compounded, and the limits of the line of navigation within which the vessel may pass. Such ticket shall be kept on board the vessel, and shall be produced when required under rule 5, but shall be given up only on the date of the expiry of the period for which granted, and at the station from whence issued.

7. Duplicates of lost tickets of which the numbers and dates of entry can be satisfactorily established, will be granted by the officers in charge of toll-stations on payment of a fee of one rupee.

8. Every vessel, which does not complete its voyage within the number of days allowed by rule 3, shall, for each day or part of a day in excess, be liable to an extra charge equal to 8 annas per 100 maunds, calculated on the maundage of the vessel, as determined by rule 2. The charge for demurrage on timbers and rafts shall be as follows :—

Timber in rafts or loose	...	One anna per timber per day.
Bamboos in floats	...	Two annas per 100 per day.
Bullahs in rafts	...	Eight annas per 100 per day.

Provided as follows :—

(*1*) Exemption from payment of demurrage may be granted to vessels detained in canal by stress of weather or heavy traffic, steamers broken down and boats damaged, if immediate notice of the cause of detention be given at the nearest toll-station for the information of the Executive Engineer.

(*2*) Missionary boats are exempted from payment of demurrage for lying in the canals.

(*3*) Partial exemption from payment of demurrage is to be granted to boats thus :—

(*a*) by increasing the allowance of time for the voyage (see rule 3) which shall be calculated at the rate of one day for every 8 miles or portion of 8 miles to be traversed, together with one day for every 200 maunds of measurement or any portion of 200 maunds which is not less than 60 maunds (*N.B.*—from 60 to 190 maunds one day shall be allowed) ;

(*b*) by granting the following extra times for the purpose of *bona-fide* loading and unloading in the canals to—

	Days.
Cargo boats from 10 to 100 maunds of measurement ...	5
„ „ from 110 to 200 maunds	8
„ „ from 210 to 300 maunds	10
„ „ from 310 to 400 maunds	12
„ „ of 410 maunds and upwards	14
Passenger boats of 10 maunds and upwards ...	3

The extra times will be granted to boats which either load or unload or both in the canals, but will not apply to boats which both enter and leave the canal empty, the time allowed being as laid down in rule 3 only.

(*c*) Boats plying in the Balighye main and branch drains will be allowed extra times as noted above for both journeys—entering and leaving—separately, even if plying empty.

9. Boats are allowed to be moored while waiting for cargo or otherwise, or may be loaded and unloaded, anywhere in the canals, except within 500 feet of any lock *and within 150 feet on either side of any sluice* and except where specially prohibited by the canal staff. *In any case they must complete the voyage within the time allowable to them* under these orders, otherwise demurrage will be charged.

10. No boat is permitted to moor in the outer channels of any lock. The channels to which this prohibition extends are as follows :—

Gewankhali.—Between the Gewankhali lock and the Gewankhali khal.
Etamagra.—Between the Etamagra lock and the Haldi river.
Terapakia.—Between the Terapakia lock and the Haldi river.
Kalinagar.—Between the Kalinagar lock and the Sadar khal.
Bhaitgar.—Between the Bhaitgar lock and the Rasulpur river.

No boats will be allowed, under any circumstances, to drop an anchor or to moor to both banks in any lock, entrance or in the canals, except in the case of severe stress of weather.

11. Except with the written permission of a navigation officer, no goods or cargo may be deposited on any bank, berm or land appertaining to the canal at places other than those notified by the Superintending Engineer of the circle as available for such a purpose. Any person depositing goods in contravention of this rule shall, on conviction before a Magistrate, be liable to a fine not exceeding Rs. 50.

12. Navigation officers may order consignors or consignees or owners to remove their goods from the places notified as available for depositing cargo under rule 11. Goods not finally removed within a period of six days from the receipt of such order shall be liable to a charge of four annas per 100 maunds for each day or part of a day after the expiry of six days until finally removed.

13. Any vessel whose extreme dimensions exceed 130 feet in length and 19 feet in *breadth including goods overhanging* is prohibited from entering or passing along the canals or a line of navigation without the special permission in writing of the Executive Engineer; also no vessel exceeding 40 feet in length and 8 feet in *breadth including goods overhanging* will be allowed to enter or pass along the Balighye drain from Chowmook to Tikrapara and the branch drain from Chowmook to the Balighye Road bridge.

14. It will not be compulsory for the locks to be opened to single vessels of less than 500 maunds burden, except in the case of mail or despatch boats or passenger or cargo-boats in tow of steam-vessels; but the locks shall be opened for the passage of boats at least twice a day.

15. *Mooring.*—All vessels stopping at night must be moored head and stern to the bank of the channel or wherever specially ordered.

Only one line of vessels shall be allowed to pass along a canal or to make fast along and in a line with the canal banks or along and in a line with the banks of the river entrance to the locks, and no vessel shall be made fast, or be placed outside of vessels so secured, without the permission of a navigation officer. No vessel shall, however, be placed in such a position as to endanger the safety of other vessels, to obstruct their passage, or to impede the navigation.

16. *Rule of the Road.*—When under sail, vessels are to keep in the centre of the channel. When being tracked, vessels are, wherever practicable, to keep to starboard or right side of the channel. Vessels meeting in a canal, except when being tracked, must keep to their right when passing, and when one vessel overtakes another, the former must pass on the left. When vessels, one of which is sailing and the other steaming, meet in a canal, the sailing vessel must keep to the leeward. A steamer passing any vessel is bound to go at a speed not greater than half speed.

17. *Lights and signals.*—All vessels, whether travelling or moored in a line of navigation, must, between sunset and sunrise, carry a white light, in a lantern on the forepart of the vessel where it can be distinctly seen from *all sides*. All steam-vessels in motion shall carry the lights prescribed by the Board of Trade Regulations. Barges or boats attached to a steam-vessel, whether in motion or moored, shall carry the white light prescribed above.

Where signals are used, no vessel shall enter or attempt to enter the entrance channel of a lock when a red flag or red light is displayed at the end of the lock next her, "*but shall wait until the signal intimating 'all clear' is displayed.*" Steam-vessels approaching a lock shall whistle when a mile distant, and shall continue to whistle at intervals, until the signal intimating that the lock is open or closed is displayed, or, if no signals are used, until arrival.

18. *Crews and Attendants.*—Every vessel when stationary shall be securely fastened, and shall at all times have some person in attendance on board. Every vessel in motion shall have a sufficient crew.

19. *Fittings.*—Vessels must have their masts, high awnings, and funnels fitted so that they can be let down with ease and speed, and no bamboos or poles shall be erected on or by vessels when at anchor.

20. *Conduct of navigation.*—Vessels are prohibited from making fast to any portion of the lock-gates or gearing, and steamers are prohibited from making fast the tow-lines of their boats until the latter are clear of the locks. Steamers are prohibited from lashing boats or barges alongside while proceeding within locks. Towing ropes of a greater length than 50 feet are not to be used in a canal. The throwing of cinders into any canal is prohibited; they are to be deposited on the banks.

21. In every case of wreck or obstruction of the channel by sunken vessels, the Supervisor of the line of navigation or of a part of it may call upon the person in charge of the vessel to remove the same without delay, and shall give every reasonable assistance towards so doing. But should the owner of the vessel or raft be not forthcoming, or should he not use reasonable expedition in removing the obstruction, or should he decline or fail to use proper assistance which may be offered to him by the Supervisor, this officer may, under the provisions of section 14 of the Act, undertake the removal of the obstruction himself at the cost of the owner of the boat, recovering the expense in the manner laid down n section 9 of the "Canals Act, 1864".

In the case of emergency and in the temporary absence of the Supervisor from the place where the obstruction occurred any navigation officer present must at once report the matter to the Supervisor.

22. If the Supervisor be unable to ascertain the name and place of business or of abode of the owner of the cargo of any vessel or boats seized under the "Canals Act", he shall notify the seizure in the most public manner available.

23. In the event of any damage or injury being occasioned to the canal works by wilfulness or negligence on the part of any person in charge of a vessel, the navigation officers may detain the vessel at any point within the canal for a period not exceeding 48 hours; provided that, within that period, the navigation officers shall lodge a complaint against such person in charge of the vessel before a Magistrate under section 16 of the "Canals Act".

24. For any contravention of rules 15, 16, 17, 18, 19 and 20, the person in charge of the vessel shall, on conviction before a Magistrate, be liable to a fine not exceeding Rs. 50.

25 The term "navigation officers" as used in the foregoing rules shall include all persons appointed under section 8 of the "Canals Act, 1864", and all Public Works Officers or subordinates in charge of the canal not below the grade of Sub-Overseer.

26. The canals may be closed once a year for effecting the necessary repairs to them on one month's notice of the intention so to close them being given; but in the event of any sudden emergency, the canals may be closed at any time without prior notice, and no claim in such case by owners of vessels or others for compensation on account of detention shall be entertained.

9. (*1*) Monthly tickets are, at the option of the payers, issued to boats carrying passengers, grass or perishable articles going to the Orphangunge Bazar or to Dhappa. The cost of these tickets is at six times the ordinary toll as calculated by the above rates, if the tickets are issued at the Supervisor's office, and at ten times the ordinary toll as calculated by the above rates, if the tickets are issued at the toll-station at Dhappa or at Kidderpore.

(*2*) Monthly tickets at ten times the ordinary toll as calculated under item 1 of the Schedule for entering the canals from the eastward will be issued to boats carrying passengers, vegetables and perishable goods for plying within the Circular, New Cut and Kristopur Canals. These tickets will not entitle the boats to pass through the Dhappa or Chitpur Lock, but they will be allowed to pass the Kristopur Toll-station.

10. *Excess tolls.*—Vessels which are passing through the canals, and which enter either empty or partially loaded, are liable to pay excess tolls at the above rates, if their tonnage by canal measurement is greater when they are leaving the canals than it was when they entered them. Vessels entering at Chitpur, Kidderpore, and Chetla for the purpose of loading in the canals pay at the time of entry with reference to their line of usual immersion according to Canal Rules.

11. *Demurrage.*—Every vessel, raft or float, which has paid toll, shall be allowed three days for passing through the Circular Canals and two days for Tolly's Nala between Gurreah and Kidderpore, and three days for Soorah outside Dhappa Lock, the days of entering and leaving being both included. In addition to these periods, they may, without further payment, remain in the canals for the further undermentioned periods, that is to say—

Boats.—Two days for the first hundred maunds and one day for every hundred maunds above the first hundred maunds.

Floats.—Two days for any number of timbers not exceeding fifty, and one day for every additional fifty.

Rafts.—Two days for any number of bamboos not exceeding five hundred, and one day for every additional five hundred.

Every vessel, raft or float remaining in any part of the aforesaid canals longer than the period allowed under the foregoing rules shall, for each day in excess of such period, be charged demurrage equal to one-half of the toll payable under the schedules above, provided that the demurrage charged shall in no case exceed Rs. 5 per diem.

[*Note.*—Open dinghees accompanying large boats are entitled to the same demurrage allowance of time as the parent boats.]

12. Steamers or flats passing through the Lower Sunderbans Channels must pay tolls at the rate of Rs. 5 each before leaving and on return to Calcutta.

13. (*1*) During neap-tides, when there is not sufficient water in the Tolly's Nala near Russa for the navigation of boats laden with firewood, they will be allowed to proceed to or from the river Bidyadhari through the Circular Canal on payment of a rate of eight annas per 100 maunds of measured maundage for passage through that canal, in addition to the rate ordinarily payable for entering or plying in Tolly's Nala.

(*2*) For the purposes of reckoning demurrage charges, in the case of such boats, under item 11 of the Schedule, two extra days will be allowed over and above those provided for vessels plying in the Tolly's Nala.

(*3*) Boats plying under this concession will not be allowed either to load or to unload along the Circular Canal or river Hooghly. Infringement of this rule will render the boats liable to the ordinary tolls in force for the Circular Canal.

14. *Additional toll.*—All boats, steamers and flats, after passing out of the Dhappa Lock, must proceed outside the toll limit at Bamanghata within 48 hours; otherwise a fresh toll will be levied in accordance with the rules in force.

15. (*1*) During the period from the 1st December to the 15th June, boats laden with rice or paddy will be allowed to proceed to or from the river Bidyadhari through the Circular Canal and the Tolly's Nala *viâ* Kidderpore on payment of a rate of Re. 1-12 per hundred maunds of measured maundage for passage through these canals.

(*2*) Boats plying under this concession will be charged the ordinary concession rate of Re. 1-12 per hundred maunds, and on leaving Tolly's Nala a further charge of 12 annas per hundred maunds only will be made if loaded with cargo other than paddy or rice, the maundage charged for and the amount charged being endorsed on the back of the concession ticket by the Toll Collector, Kidderpore.

(*3*) If any boat picks up more cargo, either in the Hooghly or in the Circular Canal, the Toll Collectors at Chitpur and Dhappa, respectively, will assess and collect the extra toll due on the cargo at 12 annas per hundred maunds, provided that the maundage of the boat does not exceed that when it originally entered at Dhappa.

(*4*) If there is an excess on leaving Tolly's Nala, a rate of Rs. 2-8 per hundred maunds will be charged on the extra cargo at Kidderpore. This will entitle the boat to pass through to Dhappa Lock and out without any further payment.

(*5*) If the cargo is picked up either in the Hooghly or in the Circular Canal, the extra toll on the extra amount will be charged at the rate of Re. 1-12 per hundred maunds.

(*6*) For the purposes of reckoning demurrage charges under item 11 of this Schedule in the case of boats laden with rice or paddy during the period from the 1st December to the 15th June, two extra days will be allowed over and above those provided for vessels plying in the Tolly's Nala.

NOTICE.

License to extract and purchase timber from the North and Middle Andaman Islands.

1. Notice is hereby given that the Government of India are prepared to consider tenders for a license to extract and purchase padauk and other timbers from—

(*i*) The North Andaman with Interview, Bennett, and all other Islands north of Austin Strait.

(*ii*) The Middle Andaman excepting that portion to the west of Yolpig and south of the main line cleared from the junction of the Chara lung-ta and Bom-lung-ta streams westwards to Mount Oldham and on to the sea.

2. Sites for depôts, sawmills, residences, and other purposes essential to the carrying out of the terms of the license will be made available at Port Cornwallis, Stewart Sound, and Long Island at the discretion of the Chief Commissioner of the Andaman and Nicobar Islands.

3. Tenders may be submitted for either or both of the above areas. The license will be for 20 years from the 1st January 1916, or such later date within six months of the acceptance of the tender as may be agreed upon, with the option of renewal for another 20 years on terms to be notified by the Government of India hereafter ; but those persons whose tenders have been accepted will be permitted to clear land for buildings, and other purposes connected with the license, and to start the erection of such buildings, as from the date on which the agreement is signed and the security money deposited.

4. The fellings will be regulated by the working plans sanctioned or to be sanctioned, by the Government of India. The two areas, mentioned in paragraph 1 above will each be divided into three sub periodic blocks. Felling and extraction of timber and the payment of royalty thereon must be completed in sub-periodic block I by the end of the first seven years of the license, work being similarly completed in sub-periodic blocks II and III by the end of the 11th and 15th years, respectively. Throughout the period of the agreement the Secretary of State for India in Council will retain the right to extract from the licensed areas timber required for local (other than trade purposes)-and for local public works, and in any sub-periodic block on the expiry of the period allotted for the working thereof to issue licenses or otherwise provide for the felling, extraction, and disposal of timber which the licensees have omitted or are not bound to extract.

5. The padauk trees to be felled will be marked previously by the Forest Department, and none but marked trees shall be felled. The first sub-periodic block in each area will be located in the neighbourhood of Stewart Sound.

6. The minimum annual outturn of padauk timber for the first fourteen years after which the present working plan will be revised, is estimated as follows, but the accuracy of the estimate is not guaranteed —

(*i*) From the North Andaman including Interview and Bennett Islands—

1,200 sound trees of and over 9 feet in girth,
1,000 exploitable unsound trees,

which may be expected to yield—

2,100 tons of first-class logs,
1,400 tons of second-class logs,
2,000 tons of third-class logs.

(*ii*) From the Middle Andaman—

2,400 sound trees of and over 9 feet in girth,
2,000 exploitable unsound trees,

which may be expected to yield—

4,200 tons of first-class logs,
2,800 tons of second-class logs,
4,000 tons of third-class logs.

The outturn for the last six years of the license will be determined by working plans to be drawn up hereafter.

7. In addition the licensees will be permitted to cut, subject to previous marking, should this in the opinion of the Forest Officer be considered desirable, and to such limits as to area and number as may be imposed by the Chief Commissioner of the Andaman and Nicobar Islands from time to time, other species as follows :—

Gurjan over 8 ft. in girth, *didu* and *pyinma* over 7½ ft. in girth, and *koko*, black *chuglam*, white *chulgam*, white *bambwe*. red *bambwe*, and *taungpein* over 6 ft. in girth.

8 The timber will, in all cases, be measured in the round log either at the stump or at collecting depôts as may be found convenient by the Forest Department. All felled timber will be held to be at the risk of the licensees and to be liable to the payment of royalty which must be paid before removal from the islands or conversion in a sawmill.

9. For the first three years of the license royalty will be payable at the rates agreed on and on the amount of timber felled ; but thereafter minima annual royalties will be payable as follows :—

(*i*) for the North Andaman, Rs. 1,00,000 per annum,
(*ii*) for the Middle Andaman, Rs. 1,00,000 per annum,
(*iii*) in case of a combined license for both islands, Rs. 2,00,000 per annum

10. Except with the special permission of the Divisional Forest Officer all padauk trees, sound or unsound, which have been marked by the forest officers as in their opinion worth conversion, must be felled and royalty paid on them.

11. Should the licensees desire to exploit any form of minor produce or any timber other than those species mentioned above, they may be permitted to do so on terms to be settled hereafter by the Chief Commissioner of the Andaman and Nicobar Islands

12. The licensees will be subject to such restrictions as the Government of India may prescribe to prevent communication between their employés and the convict population in the Andamans.

13. Subject to the general control of the Chief Commissioner of the Andaman and Nicobar Islands the cultivation of field crops solely for the support of the labour force will be permitted free of taxation.

14. Facilities will be provided at Stewart Sound for wireless telegraphy, and as far as may be possible for a weekly steamer or launch connection for postal purposes between this place and Port Blair.

15. Such padauk timber as may be available from departmental working in the areas not included in the first paragraph of this notice or in sub-periodic blocks in which felling and extraction of timber has been completed by the licensees in accordance with the provisions of paragraph 4 above and as may not be required for local consumption in the islands or for issue to State-worked railways or other Government departments in India and Burma, will be sold either by public auction or by public tender, provided that the quantity to be so sold annually, commencing from the first of January 1917, shall not exceed 500 tons of squares and 1,000 tons of scantlings. There will be no limit to the quantity of timber other than padauk which may be extracted from the areas under reference, and no restriction as to its disposal.

16. The Inspector-General of Forests, Simla, will answer calls for further information.

17. Tenders must be submitted on forms to be obtained from the Secretary to the Government of India in the Department of Revenue and Agriculture, and must be accompanied by a receipt for the payment into any Government Treasury of a sum of Rs. 1,500 in cash or in Government securities. This deposit will be returned to unsuccessful tenderers, but in the case of persons whose tenders have been accepted will be subject to forfeiture in the event of their failure to execute within the time specified the agreement referred to below.

18. All persons whose tenders have been accepted will be required to execute an agreement in a form approved by the Government of India, copies of which can be obtained on application to the Secretary to the Government of India in the Department of Revenue and Agriculture, Simla. This agreement must be signed within three months of the acceptance of the tender.

19. Tenders, marked "Tender for Andamans Timber License", should be submitted so as to reach the Secretary to the Government of India in the Department of Revenue and Agriculture, Simla, on or before the 1st September 1915. The Government of India do not undertake to accept the highest or any tender either for padauk or for other timbers, or to assign any reasons for the refusal or acceptance of any tender.

20. Without the written sanction of the Government of India no transfer, assignment or sub-letting of their license by the licensees will be valid.

L. J. KERSHAW,
Secretary to the Government of India.
Department of Revenue and Agriculture.

Acts of the Governor General's Council assented to by the Governor General.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Act of the Governor General of India in Council received the assent of the Governor General on the 22nd March, 1915, and is hereby promulgated for general information :—

ACT No. V OF 1915.

An Act further to amend temporarily the Indian Paper Currency Act, 1910.

WHEREAS it is temporarily expedient further to amend the Indian Paper Currency Act, 1910 ; It is hereby enacted as follows :— II of 1910.

1. This Act may be called the Indian Paper Currency (Temporary Amendment) Act, 1915. Short title.

2. During the continuance of the present war and for a period of six months thereafter, section 22 of the Indian Paper Currency Act, 1910, shall be construed as if for the words "one hundred and forty millions" in that section the words "two hundred millions" were substituted. Amendment of section 22 of the Indian Paper Currency Act. II of 1910

3. The Indian Paper Currency Amendment Ordinance, 1915, is repealed. Repeal of Ordinance I of 1915.

STATEMENT OF OBJECTS AND REASONS.

THE permanent policy in regard to the investment of the Indian Paper Currency Reserve is awaiting consideration in connection with the recommendations of the Royal Commission on Indian Finance and Currency. Meanwhile, without prejudice to the final decision, which may thus be reached, it was recently decided, as a temporary measure, to take power to increase the maximum investment of Rs. 14 crores authorised by the Indian Paper Currency Act, 1910, up to a total not exceeding Rs. 20 crores, with a view to providing for loans to the Presidency Banks should this be required for the assistance of trade in the conditions arising out of the war, or alternatively to enable Government, if necessary, to obtain additional funds for general purposes. Effect was given to this decision by the Indian Paper Currency Amendment Ordinance, 1915, which was promulgated on the 16th January last, *i.e.*, several days after the passing of the Emergency Legislation Continuance Act, 1915, which extended the operation of all Ordinances in force on the date when it was passed, namely, 12th January, 1915, during the continuance of the present war and for a period of six months thereafter. The Ordinance dealing with the Paper Currency investment is thus excluded from its scope, and a special Bill has accordingly to be introduced to secure its prolongation.

2. This Bill is in the form of an amendment to the Indian Paper Currency Act, 1910, and has the effect of conferring power on Government to increase the investment of the Paper Currency Reserve up to a maximum of Rs. 20 crores during the continuance of the present war and for a period of six months thereafter. The result produced is thus precisely the same as if the Ordinance dealing with this matter had come within the scope of the Emergency Legislation Continuance Act, 1915.

29. Any member of the Court, the Council, the Senate or the Syndicate or any other University authority may resign by letter addressed to the Secretary in the case of the Court, and to the Registrar in all other cases.

Resignation.

30. A member of the Court or the Senate may be removed from office on conviction of what in the opinion of the Court or the Senate, as the case may be, is a serious offence:

Removal.

Provided that a resolution for the removal of any such member is approved by not less than two-thirds of the members present at the meeting of the Court or the Senate, as the case may be, at which such a resolution is proposed;

And provided further that such a resolution is confirmed by a like majority at a subsequent meeting of the Court or Senate, as the case may be.

STATEMENT OF OBJECTS AND REASONS.

The Hindu University Society having requested the foundation of a University and funds having been collected to this end, it is proposed to dissolve the said Society and to transfer its property and rights to a new body called the Benares Hindu University. The present Bill is designed to incorporate this University, to indicate its functions, to create its governing bodies and to define their functions. It also secures to the University the assurance of a permanent endowment and to Government the necessary powers of control. It permits the University to found and control colleges in Benares (in addition to the present Central Hindu College) and also to extend its privileges to other colleges in Benares. These colleges will be the constituent colleges of the University. The degrees conferred will be recognised by Government. Special features of the University will be the imparting of Hindu religious education to Hindus and the inclusion of faculties of oriental learning and Theology.

2. The Bill also provides for the making of Statutes and Regulations. The first statutes are scheduled to the Bill and consist of those which are necessary in order that the University may commence its work when the conditions necessary to its inception have been fulfilled.

3. The general terms of the Bill and the Statutes are the outcome of long negotiations and were finally discussed with a sub-committee appointed by the Hindu University Society.

BRITISH POSSESSIONS.

Caution when approaching British Ports.

No. 73 (second publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 101 of 1915), are republished:—

PART I.

CLOSING OF PORTS.

Former Notice.—No. 1 of 1915; (*This Office No. 45 of 1915*) hereby cancelled.

(1) My Lords Commissioners of the Admiralty, having taken into consideration the fact that it may be necessary to forbid all entrance to certain ports of the Empire, this is to give Notice that on approaching the shores of the United Kingdom, or any of the ports or localities of the British Empire, referred to in Part III of this Notice, a sharp look-out should be kept for the signals described in the following paragraph, and for the vessels mentioned in paragraph (5), Part II, of this Notice, and the distinguishing and other signals made by them. In the event of such signals being displayed, the port or locality should be approached with great caution, as it may be apprehended that obstructions may exist.

(2) If entrance to a port is prohibited, three ***red*** vertical lights by night, or three ***red*** vertical balls by day, will be exhibited in some conspicuous position, in or near to its approach, which signals will also be shown by the vessels indicated in paragraph (5), Part II, of this Notice.

If these signals are displayed, vessels must either proceed to the position marked "Examination Anchorage" on the Admiralty charts and anchor there, or keep the sea.

(3) At all the ports or localities at home or abroad referred to in Part III of this Notice, search-lights are occasionally exhibited for exercise.

Instructions have been given to avoid directing moveable search-lights during practice on to vessels under way, but mariners are warned that

great care should be taken to keep a sharp look-out for the signals indicated in paragraph (2) above, when search-lights are observed to be working.

PART II.

EXAMINATION SERVICE.

(4) In certain circumstances it is also necessary to take special measures to examine vessels desiring to enter the ports or localities at home or abroad, referred to in Part III of this Notice.

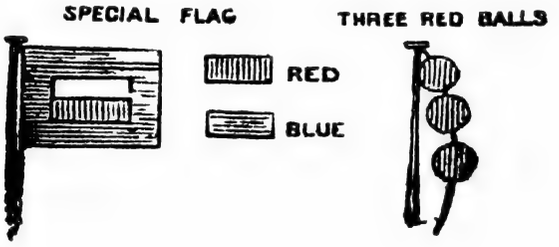
(5) In such case, vessels carrying the distinguishing flags or lights mentioned in paragraph (7) will be charged with the duty of examining ships which desire to enter the ports and of allotting positions in which they shall anchor. If Government vessels, or vessels belonging to the local port authority, are found patrolling in the offing, merchant vessels are advised to communicate with such vessels with a view to obtaining information as to the course on which they should approach the Examination Anchorage. Such communication will not be necessary in cases where the pilot on board has already received this information from the local authorities.

(6) As the institution of the Examination Service at any port will never be publicly advertised, especial care should be taken in approaching the ports, by day or night, to keep a sharp look-out for any vessel carrying the flags or lights mentioned in paragraph (7), and to be ready to "bring to" at once when hailed by her or warned by the firing of a gun or sound rocket.

In entering by night any of the ports mentioned in Part III, serious delay and risk will be avoided if four efficient all round lamps, two *red* and two *white*, are kept available for use.

(7) **By day** the distinguishing flags of the Examination Steamer will be a special flag (white and red horizontal surrounded by a blue border) and a blue ensign.

Also, three red vertical balls if the port is closed.



By night the steamer will carry :—

(*a*) Three *red* vertical lights if the port is closed.
(*b*) Three *white* vertical lights if the port is open.

The above lights will be carried in addition to the ordinary navigation lights, and will show an unbroken light around the horizon.

(8) Masters are warned that, before attempting to enter any of these ports when the Examination Service is in force, they must in their own interests strictly obey all instructions given to them by the Examination Steamer. In the absence of any instructions from the Examination Steamer they must proceed to the position marked "Examination Anchorage" on the Admiralty Charts and anchor there, or keep the sea.

Whilst at anchor in the Examination Anchorage, Masters are warned that they must not lower any boats (except to avoid accident), communicate with the shore, work cables, move the ship, or allow anyone to leave the ship, without permission from the Examination Steamer.

(9) In case of fog, Masters are enjoined to use the utmost care, and the Examination Anchorage itself should be approached with caution.

(10) Merchant vessels when approaching ports are especially cautioned against making use of private signals of any description, either by day or night: the use of them will render a vessel liable to be fired on.

(11) The pilots attached to the ports will be acquainted with the regulations to be followed.

SWEEPING OPERATIONS.

H. M. Vessels are constantly engaged in sweeping operations off ports in the United Kingdom.

Whilst so engaged, they work in pairs connected by a wire hawser, and are consequently hampered to a very considerable extent in their manœuvring powers.

A black ball at the foremast head and a similar ball at the yardarm, or where it can best be seen, on that side on which it is dangerous for vessels to pass.

For the public safety, all other vessels, whether steamers or sailing craft, must keep out of the way of vessels flying this signal, and should especially remember that it is dangerous to *pass between* the vessels of a pair.

Courses of study.

General information.

For convenience of organization the school is divided into five departments as follows:—

(1) Elementary Department.
(2) Industrial Art ,,
(3) Draftsman ,,
(4) Teacher ,,
(5) Fine Art ,,

All students joining the school must pass through a prescribed course, extending over two years, in the Elementary Department.

A student who satisfactorily proves that he has a thorough knowledge of the subject of this department will be permitted to pass into any one of the other departments. The course of study in each of these extends approximately over a period of three years; including the two years normally spent in the Elementary Department, each full course may be said therefore to occupy about five years In each of the departments, except the Elementary, a full course is arranged for students desiring to make special study and practice of a particular art. Each full departmental course is complete in itself. Shorter courses are specially arranged for purposes of more general study.

Students studying any course are required to attend any lantern lectures that may be given in the school relating to their particular subject or course.

Students are not permitted to pass from a lower to a more advanced stage in any department until the Principal has credited the student with proficiency in the subjects of the lower stage.

Examinations.

The annual examination is held in the month of March, and each student who has been regular in attendance is permitted to sit. Promotions, free admissions and scholarships are awarded on the results of the annual examination. The school-leaving certificate is also made out according to the successes obtained by the student in this examination.

Vacation and holiday study.

During the vacation students are expected to continue their instruction "in the field," and to make studies of landscape, animals, foliage and other natural subjects in their immediate surroundings. These will be examined on the re-assembly of the school and the results of a student's activity during the vacation will be considered in connection with the annual examination and his year's work.

School diplomas.

(1) A certificate is granted to a student who satisfactorily completes his course. The subjects in which he has been successful will be inscribed on the certificate, which will also include general remarks as to his capabilities, etc.

(2) A certificate may, in special cases, be granted to a student who has partially completed his course, the stage which he has reached being indicated on the certificate.

Free admissions and scholarships.

Free admissions are granted to a limited number of deserving students, preference being given to the sons of artizans who intend to become art craftsmen.

Scholarships to the total amount of Rs. 75 per mensem are sanctioned by Government. These are awarded mainly on the results of the annual examinations. Free admissions and scholarships will be generally allotted to the Elementary and Industrial Art Departments; in the other departments they will only be awarded in special cases to students with small means who show marked talent.

Every effort is made to enable students to obtain subsistence allowances from different communities, institutions and local bodies who may be sufficiently interested in their welfare to entertain the sanction of the small sum of money necessary for them to carry on their studies in the school. Copies of the following circular will be forwarded to any address supplied, with strong recommendations in the cases of exceptionally deserving students.

Scholarship Circular.

In forwarding herewith a copy of the prospectus of the Government School of Art, Calcutta, for your perusal, I have the honour to call your attention to the aims and objects of this institution, and to point out the

opportunity it provides for youths of all classes to learn a useful art or artistic handicraft which will give them a congenial and profitable occupation in after-life. With this purpose in view, the School of Art has attracted students from all parts of India, many of whom, having passed through their course, have found employment which has brought them substantial remuneration, and amply repaid them for the time they spent in the school. Most of the students now working in the school attend on their own initiative, but a certain number are provided with scholarships granted for this purpose by local bodies or private communities. It is to this particular aspect of the school that attention is specially invited, as it is believed that if the manifold advantages of providing a deserving youth with a small maintenance allowance to enable him to study in the school for four years were only more widely known, the number of these scholarships would be considerably augmented. Experience has indicated that in almost every locality or district there are lads who show either a great aptitude in their hereditary handicraft or a talent for drawing which their circumstances do not permit them to develop or improve. A subsistence allowance of Rs. 15 per mensem sanctioned by a local authority or community to enable the youth to put his aspirations into effect in the School of Art will not only serve a useful purpose in educating the boy in the direction of his desires, but may also be a means of raising the standard of any local art industry by improving its designs and technique. It is hoped that attention having been called to this inexpensive method of encouraging deserving students to carry out their artistic aims in the School of Art, may lead to more of these useful stipends being sanctioned by those who are in a position to do so. Your own personal assistance and kind co-operation in bringing this system of local scholarships to the notice of those interested will be much appreciated.

PRIZES.

Departmental prizes.

Money prizes are awarded on the results of the annual examination and the year's work.

If a sufficiently high standard of work is attained, a first and second prize will be awarded annually to each class.

Prizes will also be awarded for attendance and for exemplary conduct in the hostel.

Vacation prizes.

Prizes are also given for good work done during the school holidays and vacation.

MUSEUM.

The school building is close to the Art Section of the Indian Museum, which institution contains a very valuable and comprehensive collection of Indian art. The Museum has one day each week reserved for "Students only," and arrangements are made for those attending the school to make studies on these occasions from the various specimens displayed in the cases. Where advanced copies are being prepared or more finished drawings required, examples of art from the Museum collections are loaned for short or long periods to the various classes of the school so that continuous studies of these objects may be made (Section III, rule 9, By-laws, Art Section, Indian Museum).

Those students who satisfactorily complete any one course of the school usually have no difficulty in obtaining suitable and remunerative employment. During the year 1912-13 some 48 passed students obtained employment after leaving the school at an average commencing salary Rs. of 37-8 per mensem. This does not include a number of students who commenced business on their own account by undertaking commissions for art work, such as illustrating, designing, pictorial advertisements and pictures.

All communications relating to the school, except where otherwise stated, should be addressed as follows :—

Forecast of the *Rabi* Crops of Bengal, 1914-15.

(NOTE.—On the average of the five years ending 1912-13, the area under summer rice in Bengal represents some 0·4 per cent. of the total area under rice in British India.)

Character of the Season.—The sowings were generally commenced in the normal time. The progress was somewhat slow on account of the defective rainfall both in September and October. The crops at their early stage suffered to some extent owing to a state of drought prevailing in November and the first part of December. Moderate rainfall during the latter part of December, however, greatly improved the situation. The rainfall in January, although defective, was fairly evenly distributed throughout the Province and was helpful to the growth of the crops. In February also the rainfall was slightly in defect of the normal, but the season was not unfavourable as there was no lack of moisture in the fields. The season on the whole was fairly satisfactory in the Northern Bengal districts but less favourable elsewhere.

Acreage.—The normal area under the different *rabi* crops in the Province dealt with in the forecast is estimated at 3,956,300 acres. The area actually sown this year is reported to be 3,124,700 acres against 3,194,200 acres last year, which shows a slight decrease. 375,400 acres are reported to be under summer (*boro*) rice this year, against 375,900 acres (revised) last year.

Outturn.—Estimated percentages of outturn in the sixteen districts where the crop is most important are as follows :—Rangpur 103, Tippera 95, Jalpaiguri 82, Pabna 80, Dacca 79, Noakhali 78, Faridpur 77, Bakarganj and Midnapore 75, Malda and Mymensingh 73, Murshidabad 68, Burdwan 67, Jessore 61, Rajshahi 56, and Nadia 55.

According to the estimates of the District Officers the outturn of the different *rabi* crops for the Province as a whole works out to 75 per cent., against 89 per cent. of the normal last year.

Accepting 86 per cent. as the outturn of summer rice, the gross yield of the crop for the Province on the basis of a normal yield of 13½ maunds of clean grain per acre, is estimated at 3,202,100 cwts., against 3,504,600 cwts. (revised) last year. The decrease works out to about 8·6 per cent. on last year's outturn.

Murshidabad.	Barley	30,900	14,800	13,200	92	67	October ...	March; normal ...	The increase and decrease in the areas under cereals, pulses, and fruit and vegetables are due to changes in the classification of the crops. The abnormal decrease under fodder crops is due to abandonment of the cultivation of oats by certain silk factories. The decrease against other heads is due to want of rainfall in proper time. The weather has not been favourable. Want of rainfall hindered the growth of the crops. The damage by drought is estimated at four annas.

Jessore.	Barley	2,900	1,900	1,800	75	66	October; normal	February; normal	The decrease in area under *boro* rice is due to abandonment of cultivation in the Magura subdivision. The decrease under other crops is due to absence of rain at sowing time. There has been a serious defect of rain throughout the season. The crops have been damaged to the extent of about six annas in the Sadar and of about seven annas in the Jhenidah subdivision owing to drought. The Subdivisional Officer, Narail, reports that some damage has been caused by insect-pests. Hence the outturn is below the normal.

9. (*1*) No heavy motor-car which is used either as a stage carriage or otherwise for the conveyance of passengers for gain or hire shall draw a trailer.

(*2*) Not more than one trailer shall be drawn by any motor-car :

Provided that the Commissioner may, by order, for special reasons to be recorded by him, permit more than one trailer to be drawn by any such car upon such conditions (if any) as may be specified in such order.

Marking of trailer

10. The owner of every trailer shall cause to be printed or otherwise plainly marked on a conspicuous part of the right or off side of the trailer, in letters and figures not less than one inch in height, and of such shape and colour as to be clearly legible and clearly distinguishable from the colour of the ground whereon the said marking is made,—

(*a*) the weight of the trailer when unladen, and

(*b*) the axle-weight of each axle of the trailer, if the weight of the trailer when unladen exceeds one ton;

and shall cause the said marking to be from time to time repaired or renewed, as often as may be necessary to keep the said letters and figures clearly legible and clearly distinguishable.

Axle-weight of trailers

11. The axle-weight of an axle of a trailer shall not exceed four tons.

Power of Commissioner or his office to ascertain axle-weight of heavy motor-car or trailer at any time.

12. (*1*) Whenever the Commissioner, or any officer duly authorized by him in this behalf, has reasonable ground for suspecting that the axle-weight for the time being of any axle of any heavy motor-car or trailer drawn thereby exceeds the registered or marked axle-weight of that axle, he may—

(*a*) require the person driving or in charge of the car to drive the car, or cause it to be driven, with or without the trailer, to a weighing machine, and

(*b*) cause the axle-weight for the time being of any such axle to be ascertained.

(*2*) The person driving or in charge of such car shall comply with any such requirement, and shall to the best of his ability afford all such facilities as may reasonably be necessary for the purpose of ascertaining the axle-weight as aforesaid.

Width of tyres of trailers.

13. To every trailer exceeding one ton in weight, when unladen, the wheels of which are fitted with tyres which are not pneumatic nor made of soft or elastic material, clause (*c*) of sub-rule (*1*) and sub-rules (*2*) and (*3*) of rule 5 in this Part shall apply, with the substitution—

(*a*) of three inches for six inches as the minimum width of the tyres, and

(*b*) of references to the axle-weights marked upon the trailer in pursuance of rule 10 for the references to registered axle-weights.

Diameter of wheels of heavy trailers

14. Rule 6 shall apply to every trailer exceeding one ton in weight when unladen, the wheels of which are fitted with tyres which are not pneumatic nor made of a soft or elastic material.

PART IV.—Motor-cabs ("Taxis").

1. For the purpose of these rules a "motor-cab" or "taxi-cab" means a light motor-car, as defined in Part I, which stands or plies for hire in any public place.

2. No light motor-car shall stand or ply for hire unless it is registered as a motor-cab. The registration of every motor-cab shall be renewed once every twelve months and no motor-cab may be used unless it holds a subsisting certificate.

3. On the registration of a motor-car as a motor-cab, a certificate of registration shall be granted by the Commissioner of Police.

4. Notwithstanding anything to the contrary in sub-rule (*3*) of rule 1 in Part II of these rules the fee payable for the first registration of a motor-car which is intended for use as a motor-cab shall be Rs. 16 and the fee payable for every re-registration of such a car shall be Rs. 8.

5. (*1*) A license to drive a motor-cab shall be in a form prescribed by the Commissioner of Police.

(*2*) The driver named in the license shall at all times when on duty with a motor-cab wear in a conspicuous position a metal badge to be supplied by the Commissioner of Police bearing the number of the license, such badge to remain the property of the Commissioner, and to be surrendered if the license is suspended or cancelled for any reason or on the expiry of the same.

(*3*) All changes in the licensee's address shall be at once notified to the Commissioner of Police by a written notice signed by the holder of the license, and quoting the number and date of the license.

(*4*) Neither the license nor the badge above referred to shall be transferred or lent to any other person under any circumstances whatever.

(*5*) A fee of Rs. 10 shall be paid to the Commissioner of Police on the issue of the license. No extra charge shall be made for the badge. If the license be suspended or cancelled for any breach of the rules or the conditions herein contained, a fee of Rs. 10 shall be payable when the license is re-issued or a new one granted.

(*6*) The license shall be in force for one year from the date of issue, and be subject thereafter to renewal annually on payment of Rs. 2.

(*7*) The holder of a license to drive a taxi-cab is entitled on application to receive also a license to drive a light motor-car without further examination or payment of fees.

6. An applicant for a motor-cab driver's license under these rules shall, before receiving such license, satisfy the Commissioner of Police that he is acquainted with the principal places and streets in and around Calcutta and Howrah, that he has a thorough knowledge of the prescribed rates for hire and that he is in all respects a fit person to be the driver of a motor-cab.

7. For any breach of these rules any motor-cab driver's license may be cancelled or suspended or otherwise dealt with by the Local Government.

8. (*1*) No motor-car shall be used as a motor-cab, unless it is fitted with a taxi-meter or other approved mechanical device for automatically and visibly registering on each occasion the fare to be charged according to the rates for distance or time or a combination of distance and time. The taxi-meter must be fixed to and operated from a "non-driving wheel." Every taxi-meter when in use shall be locked and sealed, so that it may not be tampered with.

(*2*) Every taxi-meter shall be fitted with an indicator or handle in the form of a flag on which shall be printed the words "for hire." The taxi-meter shall be so constructed that when the indicator is vertical the taxi-meter shall be out of action. Such indicator shall be so placed as to be clearly visible to any person outside of and in front of the vehicle, and to the hirer when inside.

(*3*) The vertical position shall indicate that the vehicle is available for hire, and no driver shall without reasonable excuse refuse to accept a fare when the indicator is in the vertical position.

(*4*) Any owner, driver, attendant or other person who shall break or tamper in any way with the seal placed on the taxi-meter, or who shall, with intent to deceive, tamper with the taxi-meter or the driving mechanism thereof, shall be deemed to have committed a breach of this rule.

9. Every taxi-meter referred to in rule 8 shall, after it is affixed to a motor-cab, whether for the first time or after repair or other readjustment, be submitted to the Commissioner of Police, or to such officer as he may empower in this behalf for the purpose of examination as to correctness of fittings, and of subjection to a practical road-test over a measured distance of one mile and a time-test of not less than half an hour. If found to be correct, the taxi-meter and its fittings shall then be sealed to the motor-cab in such a manner that it cannot be removed or tampered with without the seals being broken or removed.

10. Every taxi-meter shall, at the end of each period of six months (the first of such periods commencing from the date of the test referred to in rule 9), be submitted to a test similar to that prescribed by rule 9:

Provided that every taxi-meter shall, at any time, if so required by the Commissioner of Police, be submitted to him or to such officer as he may empower in this behalf, for the purpose of undergoing such test or any portion thereof.

11. The owner of every motor-cab shall cause to be kept in the cab, for the inspection of the public, a register in which the testing officer referred to in rule 9 shall, after each of the tests prescribed in rules 9 and 10, enter the date and result of such test.

12. Every motor-cab shall be provided with a light so placed as to illuminate the taxi-meter at night.

13. In every motor-cab there shall be available for the inspection of customers a list of rates, and the fare charged for the hire of the motor shall not exceed the maximum fare calculated according to the scale of such of the said rates as may be applicable.

14. The driver of every motor-cab shall, as soon as he is hired and no sooner, set the taxi-meter in motion, and upon the termination of the hiring shall immediately stop the same. If he neglects or fails to do so, he shall be deemed to have committed a breach of this rule. But if a motor-cab is called from a garage or a stand to take up a passenger at any place less than 500 yards from the garage or stand, the taxi-meter shall not be set in motion until the motor-cab shall arrive at such place and be ready to take up the passenger:

Provided that in the event of a motor-cab whilst hired being unable to proceed from any mechanical derangement or tyre failure, either temporarily or otherwise, the driver shall at once stop the mechanism of the taxi-meter as against the hirer, and shall not re-start the same until such time as the defect is remedied.

15. A driver of a motor-cab shall, in the absence of reasonable cause to the contrary, proceed to the destination named by the hirer and by the shortest and quickest route.

16. The brakes of a motor-cab shall be so affixed as to be capable of easy application. At least one brake shall be so made as to be applied by the foot of the driver, and at least one shall act directly upon the road wheels.

17. All brake and steering connections secured with bolts shall have such bolts secured with nuts, the same to be locked or pinned.

18. Every motor-cab shall be capable of being readily steered, and able to turn on each lock and to proceed in a contrary direction within a roadway not more than 30 feet wide from kerb to kerb:

Provided that the Commissioner of Police may, in his discretion, grant a certificate of registration as a motor-cab to a motor-car intended for use as a motor-cab, if such car is capable of turning within a reasonable space over and above the said space of 30 feet.

19. The wheel-tracks of the front and the rear wheels must, so far as is possible, coincide (*i.e.*, the wheel-track of the rear wheels must be the same as the wheel-track of the front wheels); and in no case shall the width of the front wheel-track be less than that of the rear wheel-track or the wheel-tracks vary by more than 2½ per cent. of the width.

20. All the underparts of a motor-cab inside the pivots of the front axle and steering arms (which must be placed as near as possible to the road wheels), as far back at least as the rear axle, must clear the ground at least 10 inches, sufficient allowance in addition being made to provide for the wear of the tyres, set of springs and other causes of lessened height, so that the minimum clearance of 10 inches is at all times maintained.

21. It shall be the duty of the owner to see that all parts of the mechanism of the car are periodically inspected and kept in proper working order, and a register shall be kept of such inspections in a convenient form giving such particulars as the Commissioner of Police may prescribe. This register shall be open at any reasonable time to the inspection of the Commissioner of Police or any person duly authorized by him in that behalf. Any failure to maintain this register or to produce it when called for by lawful authority shall be deemed to be a breach of this rule.

22. In every motor-cab the machinery shall be so constructed that no undue noise or vibration is caused, and shall be maintained in such condition at all times.

23. Carburetters must not, in any motor-cab, be placed in close proximity to magnetos or to connection of wires carrying an electric current, unless such magnetos and wire-connections are respectively screened off or encased in a suitable manner.

24. A second tap shall be provided between the tank and the carburetter, and shall be so constructed that it can be shut off or turned from the exterior of the car. Every motor-cab shall also carry some particular form of efficient fire-extinguisher.

25. No oil shall be allowed to drop upon the roadway, and where a tray or undershield is fixed below the mechanism of the car for the purpose of preventing this or for any other purpose, such tray or undershield shall be so placed or constructed that no petrol from the tank, supply pipe or carburetter can collect therein.

26. Tanks for petrol must be so placed that any overflow shall not fall on or soak into cushions, upholstery or floor mats in or about the body and the filling nozzle shall be brought to and permanently fixed to some point outside the body. No petrol shall be poured into the tank whilst the engine is running or whilst any lamp other than an electric lamp is burning in or on any portion of the car.

27. Effective means shall be provided in every motor-cab for preventing the heat of the motor or of the exhaust pipe connections from injuriously affecting other parts of the cab or nterfering with the comfort of passengers. All wires carrying electric current must be properly insulated and protected from injury, and so placed that they cannot be a source of danger.

28. The outlet from the silencer shall not, in any motor-cab, be so placed as to project the exhaust directly on to the road, or be so placed or directed as to alarm horses that may be immediately behind the cab.

29. Every motor-cab shall have at least one driving wheel fitted with an approved means of preventing or limiting side slip, and shall carry at least one spare inflated tyre and rim or other approved device which can, if necessary, be quickly fitted to any wheel.

30. Every motor-cab shall be provided with a means of communication between passenger and driver.

31. Every motor-cab shall be provided with adequate means for the conveyance of a reasonable quantity of luggage, and with a sufficient number of chains, straps or other means of securing such luggage. No luggage shall be carried on the roof of the cab, unless there has been affixed thereto a guard rail of a type approved by the Commissioner of Police or by such officer as he may empower in this behalf.

32. Where acetylene or other gas is used to light the carriage, the cylinders or vessels which contain the gas or in which it is generated must be fixed outside in such a position as to minimize the danger of accidental ignition.

33. No celluloid or xylonite fittings shall be placed inside or outside any motor-cab:

Provided that this rule shall not apply to the inside of the accumulators contained in such cab.

34. No printed or written matter other than the sanctioned rates for hire or these rules shall appear on the outside of a motor-cab or be carried by way of advertisement. Small advertisements of a pattern to be approved by the Commissioner of Police may, however, be exhibited within the cab.

35. The cushions of the seats in every motor-cab shall be covered and stuffed with suitable material to be approved by the Commissioner of Police or by such officer as he may empower in this behalf.

36. The doors, windows, seats, roof, springs, wheels, cushions, linings, panels, etc., and all furniture and appointment of a motor-cab, shall be in proper order and repair, the paint and varnish in good condition and the inside perfectly clean. The floor shall be covered with a mat of rubber, coir or other suitable material.

37. The Commissioner of Police may prohibit the use of a motor-cab which is in his opinion unfit to ply for hire until such time as the defects are remedied to his satisfaction.

38. The carrying capacities of all motor-cabs shall be fixed by the licensing officer.

39. The driver of a motor-cab immediately after any hiring shall carefully search for any property accidentally left in it, and shall take the same within 24 hours, if not sooner claimed by the owner, to the nearest police-station.

40. The drivers at motor-cab stands shall observe the following rules, namely :—

(*1*) The drivers of the first two motor-cabs on the stand must stay beside their cabs and must be ready to be hired at once by any person :

(*2*) The following conditions must also be strictly complied with, namely :—

(*a*) each new type of motor-vehicle intended for registration as a motor-omnibus must be presented at such place as the Commissioner of Police may appoint for inspection ; and

8. (*1*) If, after inspection, the vehicle is approved, such approval may extend to all vehicles of that description, and others of the same type need not be again presented except as hereinafter provided, but may be taken to such place as the Commissioner may appoint to be registered and passed, provided a certificate from the maker or importer is submitted with each vehicle presented for registration, stating that it is in every respect similar to that already approved and respecting which a certificate has been furnished.

(*2*) Notwithstanding anything contained in sub-rule (*1*), if after the type has been passed, defects develop, which in the opinion of the Commissioner render it unsuitable as a type for public service, the Commissioner may withdraw such approval entirely or until the defects have been remedied to his satisfaction.

9. A certificate from the proprietor of the vehicle, stating that there has been no alteration in the design of the machinery since the previous inspection and date covered by the maker's or importer's certificate, must be presented with each omnibus submitted for renewal of registration. Should any alteration be made, full particulars of such must be stated and the same course of action may be required as for a first inspection.

10. Should it be deemed necessary, an expert, accepted by both parties, shall be employed to advise. The fee for the expert examination must be deposited by the proprietor with the Commissioner, which fee will be returned if the vehicle be passed without any alteration being required.

11. (*1*) When making application for the vehicle to be inspected the proprietor must specify the route or routes upon which and the hours between which he intends the vehicle to ply, and these routes may not be departed from except after due notice has been given to the Commissioner. and his permission obtained in writing.

(*2*) Nothing in sub-rule (*1*) shall be taken to prohibit a proprietor changing the route as often as he chooses, provided such route has been previously certified to be suitable for such vehicles.

21. Every motor-omnibus must be fitted with at least two independent brakes, each capable of stopping and holding the vehicle under all conditions. They must also, where necessary, be fitted with an approved form of compensating device.

NOTE.—The maintenance of the brakes in perfect order is of the utmost importance, and this will be at all times insisted upon. They will at any time be subject to inspection by the Police.

22. The brakes shall be so fixed as to be capable of easy application, and at least one must be applied by a pedal. Brakes will not be deemed independent which are operated by pedals or levers acting through the same connections, upon the same brake blocks, or upon the same brake drums, and at least one must act directly upon the road-wheel without any connection with the propelling gear.

23. The operation of either brake must in no case declutch.

29. All parts connected by bolts, or studs and nuts, subject to severe vibration, must be fastened by lock nuts, or by nuts and approved spring or lock nut washers, to prevent their working loose and causing noise, and any vehicle with lamp brackets or other fittings loose, and likely to cause unnecessary noise, will be regarded as unfit for public service.

30. The machinery must be so constructed that no undue noise or vibration arises from its use.

NOTE.—The maintenance of the vehicle in a satisfactory condition in this respect will be strictly enforced.

31. Every vehicle must be submitted at a time and place appointed, to be specially tested in respect of noise and vibration.

32. Every omnibus must be so geared that its highest speed shall not be in excess of the maximum laid down, *viz.*, 12 miles an hour.

The revolution of the engine when running at the speed which will give 12 miles an hour with the stated highest speed gear must also be supplied.

34. (*1*) The lubrication of the engine and the carburation of the working mixture must be so controlled that smoke shall not be emitted with the exhaust, or from any other part.

(*2*) The proprietor of a vehicle which is not properly maintained in accordance with the foregoing sub-rule may be served with a notice "not to use the vehicle" until the defect has been remedied.

35. Carburetters or other petrol receptacles, unless they are suitably encased or screened, must not be placed in close proximity to magnetos, or to connections of wires carrying electric current.

The filling nozzle or inlet for the petrol or other liquid fuel should, where possible, be brought to the outside of the body.

39. All wires carrying electric current must be properly insulated and protected from injury, and so placed that they cannot be a cause of danger.

40. Effective means must be adopted for preventing the heat of the motor, generator or exhaust pipe connections from injuriously affecting any parts of the vehicle or the comfort of the passengers.

41. The exhaust pipe must not be led inside the tray or undershield or be fixed in such a position that oil, or any vaporizable or inflammable material is likely to be dropped upon it.

42. The outlet from the silencer must not be so placed as to project the exhaust directly to the rear or on to the roadway, or be so placed, or so directed as to alarm horses immediately behind the vehicle.

43. The machinery must be so constructed or placed that oil or grease from the bearings cannot drop on to the roadway. The proper maintenance of the vehicle in this respect will be strictly enforced.

44. When trays are fixed beneath the parts, they must have suitable webs for retaining the oil when ascending or descending inclines, or be otherwise suitably constructed with that object. Oil or other material collecting in the trays must be cleaned out frequently and not allowed to accumulate.

59. Effective means must be provided to prevent the rattling of window frames and glasses.

60. The vehicle must be suitably lighted inside and outside. Where acetylene or other gas is used, the cylinders or vessels which contain the gas or in which it is generated must be fixed outside in such a position as to be removed as far as possible from danger of accidental ignition. The pipes must be led along the outside of the vehicle, but not along the outside of the roof.

61. A hand-bulb horn, for giving due warning of the approach of the vehicle, must be provided.

62. Celluloid or xylonite fittings will not be permitted inside or outside the vehicle, but this does not apply to accumulator cells.

63. A box or other approved means must be fitted to the front and to the rear of the vehicle to show destination to which the vehicle is proceeding. The letters and background must be black and white, respectivly, and the letters at least 4½ inches high and proportionally thick.

No. 4—Notification.—In supersession of those portions of Bengal Government notification No. 98, dated the 4th April 1893, and notification No. 10, dated the 22nd December 1906, which relate to the Hijili Tidal Canal and the portion of the Orissa Coast Canal lying in this Presidency, the following draft of (1) revised rules and (2) revised schedules of rates of tolls, which in exercise of the powers conferred by sections 6 and 11 of the Canals Act, 1864 (Bengal Act V of 1864), the Governor in Council intends to make and fix for the Hijili Tidal Canal and the portion of the Orissa Coast Canal lying in this Presidency, is published, as required by section 12 of that Act, for the information of persons likely to be affected thereby.

II. The draft will be taken into consideration on or after the 20th May 1915 and any objection or suggestion which may be received by the undersigned before that date will be duly considered.

F. A. A. COWLEY,
Offg. Secy. to the Govt. of Bengal.

Draft Rules.

1. Every vessel, entering or passing along any of the above lines of navigation, shall be liable to measurement for the purpose of ascertaining the amount of toll the vessel should pay according to the schedule of rates authorised by Government to be charged on the line of navigation.

2. The tonnage of every vessel, except loose timber and rafts, whether laden or empty, shall, for the purposes of the "Canals Act, 1864," and of these rules, be determined by the following measurements:—

(*a*) The product of half the length of the vessel, measured along the water-line and round the contour of the vessel from centre of stem to centre of stern-post, multiplied by the interior greatest breadth of the vessel or by the greatest breadth of the cargo, should this overhang, or, as in the case of logs, be lashed alongside, multiplied by the greatest interior depth from the water-line to the bottom of the vessel, is to be taken as equal to the number of maunds upon which toll shall be levied.

(*b*) The measurement of the length is to be made in feet, rejecting fractions of a foot, and the measurement of the breadth and depth in feet and quarters of feet, rejecting portions of less than a quarter of a foot.

(*c*) In calculating the amount of toll to be levied, any portion of 100 maunds less than 10 maunds is to be omitted.

(*d*) In calculating the amount of toll to be levied on steamers, an allowance of one-third the total maundage, as found under clauses (*a*), (*b*) and (*c*) is to be made for engine space.

3. Every vessel entering or passing along any of the above lines of navigation shall be furnished with a ticket on paying the prescribed toll. The ticket shall specify the station at which it has been issued, the name of the person in charge of the vessel, the date on which the voyage commenced, the point to which the vessel may proceed on the line of navigation, the maundage of the vessel, the amount of toll charged, the number of days allowed for the voyage, and the date of such last day. The

number of days so allowed without additional payment shall be calculated at the rate of one day for every eight miles, or portion of eight miles, to be traversed, together with one day for every 200 maunds of measurement In the case of rafts, one day for every five miles shall be allowed.

4. Toll may be paid at the first station, either for the entire number of toll-stations on the line of navigation or for any less number of stations.

5. The tickets thus given may be demanded for inspection by any duly authorised navigation officer, and must be kept on board and at hand for that purpose. They must be shown at each-toll-station the vessel has to pass as a passport that no further payment of toll is to be demanded. The tickets shall be delivered up at the last toll-station.

Navigation officers shall have authority to check-measure vessels whenever they consider it necessary, and if the toll due according to the check-measurement exceeds that originally paid, the difference shall be payable at the toll-station of check-measurement, or at the next toll-station at which the vessel may arrive if the check-measurement was made at some point other than a toll-station. The officer collecting the difference shall endorse the ticket showing the measurements, and note the amount recovered in excess of the toll originally paid.

6. Owners or hirers of vessels may compound, by the payment of a fixed sum, for the use of the whole or any portion of the canals or any period that may be agreed upon, not exceeding one year. In such case the vessel shall be furnished with a ticket showing the amount of toll paid, the period for which the toll has been compounded, and the limits of the line of navigation within which the vessel may pass. Such ticket shall be kept on board the vessel, and shall be produced when required under rule 5, but shall be given up only on the date of the expiry of the period for which granted, and at the station from whence issued.

7. Duplicates of lost tickets of which the numbers and dates of entry can be satisfactorily established, will be granted by the officers in charge of toll-stations on payment of a fee of one rupee.

8. Every vessel, which does not complete its voyage within the number of days allowed by rule 3, shall, for each day or part of a day in excess, be liable to an extra charge equal to 8 annas per 100 maunds, calculated on the maundage of the vessel, as determined by rule 2. The charge for demurrage on timbers and rafts shall be as follows :—

Timber in rafts or loose	...	One anna per timber per day.
Bamboos in floats	...	Two annas per 100 per day.
Bullahs in rafts	...	Eight annas per 100 per day.

(*1*) Exemption from payment of demurrage may be granted to vessels detained in canal by stress of weather or heavy traffic, steamers broken down and boats damaged, if immediate notice of the cause of detention be given at the nearest toll-station for the information of the Executive Engineer.

(*2*) Missionary boats are exempted from payment of demurrage for lying in the canals.

(*3*) Partial exemption from payment of demurrage is to be granted to boats thus :—

(*a*) by increasing the allowance of time for the voyage (see rule 3) which shall be calculated at the rate of one day for every 8 miles or portion of 8 miles to be traversed, together with one day for every 200 maunds of measurement or any portion of 200 maunds which is not less than 60 maunds (*N B*—from 60 to 190 maunds one day shall be allowed) ;

(*b*) by granting the following extra times for the purpose of *bona fide* loading and unloading in the canals to—

	Days.
Cargo boats from 10 to 100 maunds of measurement ...	5
,, ,, from 110 to 200 maunds	8
,, ,, from 210 to 300 maunds	10
,, ,, from 310 to 400 maunds	12
,, ,, of 410 maunds and upwards	14
Passenger boats of 10 maunds and upwards ...	3

The extra times will be granted to boats which either load or unload or both in the canals, but will not apply to boats which both enter and leave the canal empty, the time allowed being as laid down in rule 3 only.

(*c*) Boats plying in the Balighye main and branch drains will be allowed extra times as noted above for both journeys—entering and leaving—separately, even if plying empty.

9. Boats are allowed to be moored while waiting for cargo or otherwise, or may be loaded and unloaded, anywhere in the canals, except within 500 feet of any lock *and within 150 feet on either side of any sluice* and except where specially prohibited by the canal staff. *In any case they must complete the voyage within the time allowable to them* under these orders, otherwise demurrage will be charged.

10. No boat is permitted to moor in the outer channels of any lock. The channels to which this prohibition extends are as follows :—

Gewankhali.—Between the Gewankhali lock and the Gewankhali khal.
Etamagra.—Between the Etamagra lock and the Haldi river.
Ter pakia.—Between the Terapakia lock and the Haldi river.
Kalinagar.—Between the Kalinagar lock and the Sadar khal.

No boats will be allowed, under any circumstances, to drop an anchor or to moor to both banks in any lock, entrance or in the canals, except in the case of severe stress of weather.

11. Except with the written permission of a navigation officer, no goods or cargo may be deposited on any bank, berm or land appertaining to the canal at places other than those notified by the Superintending Engineer of the circle as available for such a purpose. Any person depositing goods in contravention of this rule shall, on conviction before a Magistrate, be liable to a fine not exceeding Rs. 50.

12. Navigation officers may order consignors or consignees or owners to remove their goods from the places notified as available for depositing cargo under rule 11. Goods not finally removed within a period of six days from the receipt of such order shall be liable to a charge of four annas per 100 maunds for each day or part of a day after the expiry of six days until finally removed.

13. Any vessel whose extreme dimensions exceed 130 feet in length and 19 feet in *breadth including goods overhanging* is prohibited from entering or passing along the canals or a line of navigation without the special permission in writing of the Executive Engineer; also no vessel exceeding 40 feet in length and 8 feet in *breadth including goods overhanging* will be allowed to enter or pass along the Balighye drain from Chowmook to Tikrapara and the branch drain from Chowmook to the Balighye Road bridge.

14. It will not be compulsory for the locks to be opened to single vessels of less than 500 maunds burden, except in the case of mail or despatch boats or passenger or cargo-boats in tow of steam-vessels; but the locks shall be opened for the passage of boats at least twice a day.

15. *Mooring.*—All vessels stopping at night must be moored head and stern to the bank of the channel or wherever specially ordered.

Only one line of vessels shall be allowed to pass along a canal or to make fast along and in a line with the canal banks or along and in a line with the banks of the river entrance to the locks, and no vessel shall be made fast, or be placed outside of vessels so secured, without the permission of a navigation officer. No vessel shall, however, be placed in such a position as to endanger the safety of other vessels, to obstruct their passage, or to impede the navigation.

16. *Rule of the Road.*—When under sail, vessels are to keep in the centre of the channel. When being tracked, vessels are, wherever practicable, to keep to starboard or right side of the channel. Vessels meeting in a canal, except when being tracked, must keep to their right when passing, and when one vessel overtakes another, the former must pass on the left. When vessels, one of which is sailing and the other steaming, meet in a canal, the sailing vessel must keep to the leeward. A steamer passing any vessel is bound to go at a speed not greater than half speed.

17. *Lights and signals.*—All vessels, whether travelling or moored in a line of navigation, must, between sunset and sunrise, carry a white light, in a lantern on the forepart of the vessel where it can be distinctly seen from *all sides*. All steam-vessels in motion shall carry the lights prescribed by the Board of Trade Regulations. Barges or boats attached to a steam-vessel, whether in motion or moored, shall carry the white light prescribed above.

Where signals are used, no vessel shall enter or attempt to enter the entrance channel of a lock when a red flag or red light is displayed at the end of the lock next her, "*but shall wait until the signal intimating 'all clear' is displayed.*" Steam-vessels approaching a lock shall whistle when a mile distant, and shall continue to whistle at intervals, until the signal intimating that the lock is open or closed is displayed, or, if no signals are used, until arrival.

18. *Crews and Attendants.*—Every vessel when stationary shall be securely fastened, and shall at all times have some person in attendance on board. Every vessel in motion shall have a sufficient crew.

19. *Fittings.*—Vessels must have their masts, high awnings, and funnels fitted so that they can be let down with ease and speed, and no bamboos or poles shall be erected on or by vessels when at anchor.

20. *Conduct of navigation.*—Vessels are prohibited from making fast to any portion of the lock-gates or gearing, and steamers are prohibited from making fast the tow-lines of their boats until the latter are clear of the locks. Steamers are prohibited from lashing boats or barges alongside while proceeding within locks. Towing ropes of a greater length than 50 feet are not to be used in a canal. The throwing of cinders into any canal is prohibited; they are to be deposited on the banks.

21. In every case of wreck or obstruction of the channel by sunken vessels, the Supervisor of the line of navigation or of a part of it may call upon the person in charge of the vessel to remove the same without delay, and shall give every reasonable assistance towards so doing. But should the owner of the vessel or raft be not forthcoming, or should he not use reasonable expedition in removing the obstruction, or should he decline or fail to use proper assistance which may be offered to him by the Supervisor, this officer may, under the provisions of section 14 of the Act, undertake the removal of the obstruction himself at the cost of the owner of the boat, recovering the expense in the manner laid down in section 9 of the "Canals Act, 1864".

In the case of emergency and in the temporary absence of the Supervisor from the place where the obstruction occurred any navigation officer present must at once report the matter to the Supervisor.

22. If the Supervisor be unable to ascertain the name and place of business or of abode of the owner of the cargo of any vessel or boats seized under the "Canals Act", he shall notify the seizure in the most public manner available.

23. In the event of any damage or injury being occasioned to the canal works by wilfulness or negligence on the part of any person in charge of a vessel, the navigation officers may detain the vessel at any point within the canal for a period not exceeding 48 hours; provided that, within that period, the navigation officers shall lodge a complaint against such person in charge of the vessel before a Magistrate under section 16 of the "Canals Act".

24. For any contravention of rules 15, 16, 17, 18, 19 and 20, the person in charge of the vessel shall, on conviction before a Magistrate, be liable to a fine not exceeding Rs. 50.

25. The term "navigation officers" as used in the foregoing rules shall include all persons appointed under section 8 of the "Canals Act, 1864", and all Public Works Officers or subordinates in charge of the canal not below the grade of Sub-Overseer.

26. The canals may be closed once a year for effecting the necessary repairs to them on one month's notice of the intention so to close them being given; but in the event of any sudden emergency, the canals may be closed at any time without prior notice, and no claim in such case by owners of vessels or others for compensation on account of detention shall be entertained.

No. 5.—Notification.—In exercise of the powers conferred by section 11 of the Canals Act, 1864 (Bengal Act V of 1864), and in supersession of the previous notification on the subject, No. 58, dated the 17th February 1885, the Governor in Council is pleased to make the following rules for the lines of navigation known as the Eastern Canal Route and the Outer Boat Routes, as defined in Notification No. 230, dated the 23rd July 1895, and for the navigable channels from Khulna in district Khulna to Magura in district Jessore, as defined in Notification No. 7, dated the 1st September 1914.

F. A. A. COWLEY,
Offg. Secy. to the Govt. of Bengal.

RULES.

1. Wherever mooring posts have been put up by the Supervisor, vessels must be made fast by the bow and stern along the banks to such posts, or in such other manner as the Supervisor may direct.

2. As the water falls, the bow and stern ropes must be slackened, and boats gradually pushed towards the centre of the canal; when the flood comes in these two ropes must be gradually hauled in, and the boat kept as close to the bank as possible.

3. In portions of the canals where only one towing-path exists, vessels must be moored on the off-side, and the towing-path side must always be kept clear.

4. Only one boat is allowed to make fast along and in line with the canal banks, and no boat is to be made fast or be placed outside of boats so secured without the special permission of the Supervisor. No boat or raft is to be placed in such a position as to endanger the safety of other boats, or obstruct the passage of other boats; but all boats are to be placed in such places and in such a manner as the Supervisor or Inspector may at any time direct.

5. The Supervisor may, by notification, prohibit the dropping of anchors or the putting up of bamboos or *luggees* in any part of the canals or banks, and in such part no anchors must be dropped or bamboos or *luggees* put up.

6. Boats whilst loading or unloading in the canals are allowed to use ladders, but the ladders must be gradually taken in as the water rises.

7. In order to avoid collision and confusion, boats waiting for a favourable tide at the junction of two or more rivers must be moored at a distance of not less than 1,000 feet from the point of junction.

8. No person is allowed to place any obstruction on the canal banks, roads, drains or bridges (when such are on canal land) so as to impede a free passage along them, or cause injury to them, or to commit a nuisance, or deposit filth of any sort on the banks, bridges or roads or in the canals.

9. No person shall wilfully or negligently allow a vessel to sink in the canals.

10. In every case of wreck caused by negligence or otherwise, the Supervisor and his subordinates must give all possible assistance in removing the same.

11. A notice must be affixed on a wreck when recovered, calling on those concerned to pay to the Supervisor all tolls which may be due, or any fine which may have been adjudged, as well as the expenses incurred in the recovery or removal of the wreck; and intimating that if the sum be not paid within fifteen days of the date of notice, the boat and its furniture, or so much of it as may be necessary for the recovery of the dues, will be sold, the proceeds of the sale being dealt with as directed in section 9 of the Canals Act, 1864.

12. Every Canal officer is authorized to remove any vessel, anchor, pole or other thing which he may find in a position which is in contravention of these rules, and to deal with it in such a manner as may be necessary to give effect to the rules.

13. Whenever any laden vessel is seized by a Canal Officer, it is the duty of the Supervisor to give immediate notice of the same to the owner or his agent, requiring the removal of the cargo without delay, and informing him that he will be required to pay all expenses necessary for the proper custody and storage of the same.

14. If the Supervisor be unable to ascertain the name and place of business or abode of the owner of the cargo of any vessel or boat seized under the said Act, he must notify the seizure by advertisement in his office and in one or more of the public newspapers. Such notice shall require the owner to cause the immediate removal of the cargo, and to pay any necessary expenses incurred in providing for its proper custody and storage.

15. The Supervisor may incur whatever expense he may think necessary for the proper custody and storage of the cargo of any vessel seized under the Act, and if the cargo be not removed within ten days from the date of seizure, he may sell the same at public auction to the highest bidder, after giving ten days' notice of the same by advertisement in his office and in one or more of the public newspapers.

16. The money realized at such a sale is to be applied, in the first instance, to defray any expenditure that may have been incurred by the Supervisor on account of the cargo sold and the balance, if any, is to be held in deposit to be paid to the owner of the said cargo on his applying for the same.

17. No officer of any description or rank employed on the canal shall, either directly or indirectly, bid for or purchase any articles sold under these rules or under the provisions of the Act.

18. Any person (other than the Supervisor or his subordinates) who, either personally, or by his servant, infringes any of these rules, shall be liable to a fine not exceeding fifty rupees for any one infringement, and to a fine not exceeding five rupees a day for any continued infringement.

NOTICE.

License to extract and purchase timber from the North and Middle Andaman Islands.

1. Notice is hereby given that the Government of India are prepared to consider tenders for a license to extract and purchase padauk and other timbers from—

(*i*) The North Andaman with Interview, Bennett, and all other Islands north of Austin Strait.

(*ii*) The Middle Andaman excepting that portion to the west of Yoljig and south of the main line cleared from the junction of the Chara lung-ta and Bom-lung-ta streams westwards to Mount Oldham and on to the sea.

2. Sites for depôts, sawmills, residences, and other purposes essential to the carrying out of the terms of the license will be made available at Port Cornwallis, Stewart Sound, and Long Island at the discretion of the Chief Commissioner of the Andaman and Nicobar Islands

3. Tenders may be submitted for either or both of the above areas. The license will be for 20 years from the 1st January 1916, or such later date within six months of the acceptance of the tender as may be agreed upon, with the option of renewal for another 20 years on terms to be notified by the Government of India hereafter ; but those persons whose tenders have been accepted will be permitted to clear land for buildings, and other purposes connected with the license, and to start the erection of such buildings, as from the date on which the agreement is signed and the security money deposited.

4. The fellings will be regulated by the working plans sanctioned or to be sanctioned, by the Government of India. The two areas, mentioned in paragraph 1 above will each be divided into three sub periodic blocks. Felling and extraction of timber and the payment of royalty thereon must be completed in sub-periodic block I by the end of the first seven years of the license, work being similarly completed in sub-periodic blocks II and III by the end of the 11th and 15th years, respectively. Throughout the period of the agreement the Secretary of State for India in Council will retain the right to extract from the licensed areas timber required for local (other than trade purposes) and for local public works, and in any sub-periodic block on the expiry of the period allotted for the working thereof to issue licenses or otherwise provide for the felling, extraction, and disposal of timber which the licensees have omitted or are not bound to extract

5. The padauk trees to be felled will be marked previously by the Forest Department, and none but marked trees shall be felled. The first sub-periodic block in each area will be located in the neighbourhood of Stewart Sound.

6. The minimum annual outturn of padauk timber for the first fourteen years after which the present working plans will be revised, is estimated as follows, but the accuracy of the estimate is not guaranteed :—

(*i*) From the North Andaman including Interview and Bennett Islands—

1,200 sound trees of and over 9 feet in girth,
1,000 exploitable unsound trees,

which may be expected to yield—
2,100 tons of first-class logs,
1,400 tons of second-class logs,
2,000 tons of third-class logs,

(*ii*) From the Middle Andaman—
2,400 sound trees of and over 9 feet in girth,
2,000 exploitable unsound trees,

which may be expected to yield—
4,200 tons of first-class logs,
2,800 tons of second-class logs,
4,000 tons of third-class logs.

The outturn for the last six years of the license will be determined by working plans to be drawn up hereafter.

7. In addition the licensees will be permitted to cut, subject to previous marking, should this in the opinion of the Forest Officer be considered desirable, and to such limits as to area and number as may be imposed by the Chief Commissioner of the Andaman and Nicobar Islands from time to time, other species as follows :—

Gurjan over 8 ft. in girth, *didu* and *pyinma* over 7½ ft. in girth, and *koko*, black *chuglam*, white *chulgam*, white *bambwe*, red *bambwe*, and *taungpein* over 6 ft. in girth.

8. The timber will, in all cases, be measured in the round log either at the stump or at collecting depôts as may be found convenient by the Forest Department. All felled timber will be held to be at the risk of the licensees and to be liable to the payment of royalty which must be paid before removal from the islands or conversion in a sawmill.

9. For the first three years of the license royalty will be payable at the rates agreed on and on the amount of timber felled; but thereafter minima annual royalties will be payable as follows:—

(*i*) for the North Andaman, Rs. 1,60,000 per annum,
(*ii*) for the Middle Andaman, Rs. 1,00,000 per annum,
(*iii*) in case of a combined license for both islands, Rs 2,00,000 per annum

10. Except with the special permission of the Divisional Forest Officer all padauk trees, sound or unsound, which have been marked by the forest officers as in their opinion worth conversion, must be felled and royalty paid on them.

11. Should the licensees desire to exploit any form of minor produce or any timber other than those species mentioned above, they may be permitted to do so on terms to be settled hereafter by the Chief Commissioner of the Andaman and Nicobar Islands

12. The licensees will be subject to such restrictions as the Government of India may prescribe to prevent communication between their employés and the convict population in the Andamans

13. Subject to the general control of the Chief Commissioner of the Andaman and Nicobar Islands the cultivation of field crops solely for the support of the labour force will be permitted free of taxation.

14. Facilities will be provided at Stewart Sound for wireless telegraphy, and as far as may be possible for a weekly steamer or launch connection for postal purposes between this place and Port Blair

15. Such padauk timber as may be available from departmental working in the areas not included in the first paragraph of this notice or in sub periodic blocks in which felling and extraction of timber has been completed by the licensees in accordance with the provisions of paragraph 4 above and as may not be required for local consumption in the islands or for issue to State-worked railways or other Government departments in India and Burma, will be sold either by public auction or by public tender, provided that the quantity to be so sold annually, commencing from the first of January 1917, shall not exceed 500 tons of squares and 1,000 tons of scantlings There will be no limit to the quantity of timber other than padauk which may be extracted from the areas under reference, and no restriction as to its disposal.

16. The Inspector General of Forests, Simla, will answer calls for further information.

17. Tenders must be submitted on forms to be obtained from the Secretary to the Government of India in the Department of Revenue and Agriculture, and must be accompanied by a receipt for the payment into any Government Treasury of a sum of Rs. 1,500 in cash or in Government securities This deposit will be returned to unsuccessful tenderers, but in the case of persons whose tenders have been accepted will be subject to forfeiture in the event of their failure to execute within the time specified the agreement referred to below

18. All persons whose tenders have been accepted will be required to execute an agreement in a form approved by the Government of India, copies of which can be obtained on application to the Secretary to the Government of India in the Department of Revenue and Agriculture, Simla. This agreement must be signed within three months of the acceptance of the tender

19. Tenders, marked "Tender for Andamans Timber License", should be submitted so as to reach the Secretary to the Government of India in the Department of Revenue and Agriculture, Simla, on or before the 1st September 1915. The Government of India do not undertake to accept the highest or any tender either for padauk or for other timbers, or to assign any reasons for the refusal or acceptance of any tender.

20. Without the written sanction of the Government of India no transfer, assignment or sub-letting of this license by the licensees will be valid.

(*b*) calling upon the owner for the time being, by written notice, to remove the same within a time (not being less than sixty days from the date of the service of the notice) to be specified in the said notice.

(*11*) If the Chairman refuses permission to any person to erect, re-erect or add to any wall or building as aforesaid which falls—

(*i*) within the street alignment, or

(*ii*) between the street alignment and the building line

of a projected public street, the owner of the land on which it was sought to erect, re-erect or add to such wall or building, may call upon the Board, at any time within three months from the date of such refusal, either—

(*Sections 4-6.*)

(*b*) to acquire so much of his land as falls within the street alignment, or between the street alignment and the building line, as the case may be :

and the Board shall thereupon—

in case (*a*), make full compensation to the said owner for any damage which he may be found to have sustained in consequence of such refusal, and

BRITISH POSSESSIONS.

Caution when approaching British Ports.

No. 73 (third publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 101 of 1915), are republished :—

PART I.

CLOSING OF PORTS.

Former Notice.—No. 1 of 1915 ; (*This Office No. 45 of 1915*) hereby cancelled.

(1) My Lords Commissioners of the Admiralty, having taken into consideration the fact that it may be necessary to forbid all entrance to certain ports of the Empire, this is to give Notice that on approaching the shores of the United Kingdom, or any of the ports or localities of the British Empire, referred to in Part III of this Notice, a sharp look-out should be kept for the signals described in the following paragraph, and for the vessels mentioned in paragraph (5), Part II, of this Notice, and the distinguishing and other signals made by them. In the event of such signals being displayed, the port or locality should be approached with great caution, as it may be apprehended that obstructions may exist.

(2) If entrance to a port is prohibited, three ***red*** vertical lights by night, or three ***red*** vertical balls by day, will be exhibited in some conspicuous position, in or near to its approach, which signals will also be shown by the vessels indicated in paragraph (5), Part II, of this Notice.

If these signals are displayed, vessels must either proceed to the position marked "Examination Anchorage" on the Admiralty charts and anchor there, or keep the sea.

(3) At all the ports or localities at home or abroad referred to in Part III of this Notice, search-lights are occasionally exhibited for exercise.

Instructions have been given to avoid directing moveable search-lights during practice on to vessels under way, but mariners are warned that

great care should be taken to keep a sharp look-out for the signals indicated in paragraph (2) above, when search-lights are observed to be working.

PART II.

EXAMINATION SERVICE.

(4) In certain circumstances it is also necessary to take special measures to examine vessels desiring to enter the ports or localities at home or abroad, referred to in Part III of this Notice.

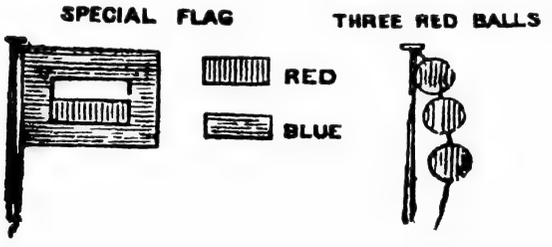
(5) In such case, vessels carrying the distinguishing flags or lights mentioned in paragraph (7) will be charged with the duty of examining ships which desire to enter the ports and of allotting positions in which they shall anchor. If Government vessels, or vessels belonging to the local port authority, are found patrolling in the offing, merchant vessels are advised to communicate with such vessels with a view to obtaining information as to the course on which they should approach the Examination Anchorage. Such communication will not be necessary in cases where the pilot on board has already received this information from the local authorities.

(6) As the institution of the Examination Service at any port will never be publicly advertised, especial care should be taken in approaching the ports, by day or night, to keep a sharp look-out for any vessel carrying the flags or lights mentioned in paragraph (7), and to be ready to "bring to" at once when hailed by her or warned by the firing of a gun or sound rocket.

In entering by night any of the ports mentioned in Part III, serious delay and risk will be avoided if four efficient all round lamps, two *red* and two *white*, are kept available for use.

(7) **By day** the distinguishing flags of the Examination Steamer will be a special flag (white and red horizontal surrounded by a blue border) and a blue ensign.

Also, three red vertical balls if the port is closed.



By night the steamer will carry :—

(*a*) Three *red* vertical lights if the port is closed.

(*b*) Three *white* vertical lights if the port is open.

The above lights will be carried in addition to the ordinary navigation lights, and will show an unbroken light around the horizon.

(8) Masters are warned that, before attempting to enter any of these ports when the Examination Service is in force, they must in their own interests strictly obey all instructions given to them by the Examination Steamer. In the absence of any instructions from the Examination Steamer they must proceed to the position marked "Examination Anchorage" on the Admiralty Charts and anchor there, or keep the sea.

Whilst at anchor in the Examination Anchorage, Masters are warned that they must not lower any boats (except to avoid accident), communicate with the shore, work cables, move the ship, or allow anyone to leave the ship, without permission from the Examination Steamer.

(9) In case of fog, Masters are enjoined to use the utmost care, and the Examination Anchorage itself should be approached with caution.

(10) Merchant vessels when approaching ports are especially cautioned against making use of private signals of any description, either by day or night: the use of them will render a vessel liable to be fired on.

(11) The pilots attached to the ports will be acquainted with the regulations to be followed.

PART IV.

SWEEPING OPERATIONS.

H. M. Vessels are constantly engaged in sweeping operations off ports in the United Kingdom.

Whilst so engaged, they work in pairs connected by a wire hawser, and are consequently hampered to a very considerable extent in their manœuvring powers.

With a view to indicating the nature of the work on which these vessels are engaged, they will show the following signals :—

A black ball at the foremast head and a similar ball at the yardarm, or where it can best be seen, on that side on which it is dangerous for vessels to pass.

For the public safety, all other vessels, whether steamers or sailing craft, must keep out of the way of vessels flying this signal, and should especially remember that it is dangerous to *pass between* the vessels of a pair.

CO-ORDINATION OF THE PAY AND ALLOWANCES OF THE VETERINARY INSPECTORS AND VETERINARY ASSISTANTS IN THE EASTERN AND WESTERN PARTS OF THE PRESIDENCY OF BENGAL.

REVENUE DEPARTMENT.

AGRICULTURE.

CALCUTTA, THE 9TH APRIL 1915.

RESOLUTION—No. 3775.

SINCE the reconstitution of the Province on the 1st April 1912, the question of co-ordinating the different rates of pay and allowances of the Veterinary Assistants, obtaining in the two parts of the Presidency, has

engaged the attention of Government. After careful consideration, the Governor in Council is pleased to sanction, with effect from the 1st March 1915, the revised scales of pay and allowances, detailed in the annexed statement, for all the Veterinary Assistants employed in this Presidency.

2. The existing pay of Veterinary Assistants in the two Western Bengal Divisions is Rs. 30—5—50 and in the three Eastern Bengal Divisions Rs. 30—$\frac{1}{5}$—70. His Excellency in Council has decided to adopt the more liberal rates prevailing in the three Eastern Bengal Divisions. As regards the local and travelling allowances, the existing rates will continue to be in force except that in the 24-Parganas, Khulna and Jessore, where travelling and living are expensive, the more liberal rates prevailing in Eastern Bengal will apply. In Western Bengal, the reserve Veterinary Assistants intended to fill temporary leave vacancies, whose number is fixed at 10 per cent. of the total number of appointments in the cadre of the Provincial and Subordinate staffs, draw travelling allowance according to the Civil Service Regulations when on duty in the mufassal but no personal allowance. In Eastern Bengal they draw a personal allowance of Rs. 10 when on duty in the mufassal and travelling allowance according to the Civil Service Regulations. His Excellency in Council is pleased to extend the Eastern Bengal system to the whole Presidency.

3. The services of the Veterinary Assistants in Eastern Bengal were provincialised with effect from the 13th October 1907 and in Western Bengal from the 1st April 1911. In neither case were the services rendered by these Assistants under different local bodies prior to their inclusion in the provincialised cadre taken into consideration for increment of pay. His Excellency in Council is now pleased to direct that the past services rendered under local bodies by the Veterinary Assistants of this Presidency should count towards increments of pay, so that each officer will now draw the pay to which he would have been entitled had he commenced his service on the incremental rate of pay now sanctioned for him. Officers who entered the service before it was provincialised will also be allowed to draw the arrear increments due to them, calculated on the old scales of pay in each case. The question of exempting the officers of the Eastern Bengal Divisions from the operation of article 478(*a*) of the Civil Service Regulations relating to the reduction of pension is under the consideration of Government.

4. The Inspectors in Western Bengal are arranged in seven grades ranging from Rs. 70 to Rs. 150. In Eastern Bengal the pay of the Inspectors is Rs. 100—5—175. As the service is small, His Excellency in Council considers a time-scale of pay more suitable than a graded system of promotion, and has therefore decided that the time-scale pay of Rs. 100—5—175 obtaining in the Eastern Bengal districts should be introduced throughout the Presidency, with effect from the 1st March 1915. The Chief Inspector under the Glanders and Farcy Act and the Prosecuting Inspector under the Cruelty to Animals Act will continue to draw a local allowance of Rs. 50 each per mensem.

5. The question of the apportionment between Government and local bodies of the cost of the pay and allowances of the District Veterinary Assistants has also been considered. The principle laid down in the Bengal Government Resolution No. 1156-T.R. of the 2nd July 1910, was that in the case of Itinerant Veterinary Assistants, half the cost of their pay and allowances other than leave allowances, should be borne by the District Boards, and that in the case of a Veterinary Dispensary with a Veterinary Assistant at a head-quarters station, maintained and paid for jointly by a District Board and a municipality, five-sixths of the annual maintenance charges should be borne by those bodies. In Eastern Bengal it was laid down in the Resolution No. 473-E. of the 26th February 1909 that the local bodies should bear two-thirds of the average charges of the salary, including local allowance, leave allowances and pension contributions of the officers employed and also the entire charges for house accommodation and travelling allowance. In view of the transfer of the Public Works cess to the District Boards, His Excellency in Council considers it reasonable that the Eastern

Bengal rule should be introduced throughout the Presidency. The net average cost on account of pay, leave allowances, etc., of a Stationary Veterinary Assistant on the Eastern Bengal scale is Rs. 67. In the case of an Itinerant Veterinary Assistant, it is about Rs. 78. The Governor in Council accordingly directs that the contributions payable by local bodies should be levied at the rate of Rs. 45 for each Stationary Veterinary Assistant and Rs. 52 for each Itinerant Veterinary Assistant employed throughout the Presidency with effect from the 1st March 1915.

Order.—Ordered that the above resolution be published in the *Calcutta Gazette* and that copies of this be forwarded to the Director of Agriculture, Bengal, and the Accountant-General of Bengal, for information and guidance, and to all Commissioners of Divisions, for communication to District Officers, and (through them) to all District Boards and Municipalities. Also that copies be forwarded to the Financial and the Municipal Departments of this Government.

Secy. to the Govt. of Bengal.

Special Forecast of the Wheat Crop of Bengal, 1914-15.

[*NOTE.—On an average of the five years ending 1912-13, the area under wheat in Bengal has represented some 0·5 per cent. of the total area under wheat in India. This ratio of irrigated wheat acreage to total wheat acreage in (a) British India and (b) in the territory now reported on has in the five years ending 1912-13 averaged (a) 37·7 per cent., and (b) 17·4 per cent., respectively.*]

Explanatory.—This forecast which shows the final acreage and yield of the wheat crop in Bengal has been published as a special case under the orders of the Government of India, Department of Revenue and Agriculture, in their Circular No. 4-C., dated the 25th February 1915.

Character of the season.—In the second forecast published on the 25th February last the weather conditions were reported not to have been favourable throughout the season excepting in January when light but timely showers had improved the situation to some extent. There was general rainfall in February also, but excepting in the Northern Bengal districts, it was everywhere defective. The estimates of outturn in the case of Burdwan, Darjeeling and Malda have, however, been slightly increased in this forecast as a result of the rainfall in February, while that of Pabna has been reduced from 80 to 50 per cent. as the result of further enquiry by the Collector.

Area sown.—The total area sown with the crop this year is estimated at 134,100 acres against 144,100 acres of last year.

Outturn.—The outturn in the important wheat-growing districts is as follows :—Nadia 42 per cent.; Murshidabad 67 per cent.; Malda 60 per cent.; Pabna 50 per cent. According to the estimate of the District Officers the provincial outturn works out to 62 per cent. against 92 per cent. of the normal last year. Taking the normal yield to be 10½ maunds per acre, the total yield for the province is estimated to be 32,100 tons against 51,100 tons last year.

War Office,
October 18th, 1914.

The following despatch has been received by the Secretary of State for War from the Field-Marshal Commanding-in-Chief, British Forces in the Field :—

17th September 1914.

MY LORD,—

In continuation of my despatch of September 7th, I have the honour to report the further progress of the operations of the Forces under my command from August 28th.

On that evening the retirement of the Force was followed closely by two of the enemy's cavalry columns, moving south-east from St. Quentin.

The retreat in this part of the field was being covered by the 3rd and 5th Cavalry Brigades. South of the Somme, General Gough, with the 3rd Cavalry Brigades. South of the Somme, General Gough, with the 3rd Cavalry Brigade, threw back the Uhlans of the Guard with considerable loss.

General Chetwode, with the 5th Cavalry Brigade, encountered the eastern column near Cérizy, moving south. The Brigade attacked and routed the column, the leading German regiment suffering very severe casualties and being almost broken up.

The 7th French Army Corps was now in course of being railed up from the south to the east of Amiens. On the 29th it nearly completed its detrainment, and the French 6th Army got into position on my left, its right resting on Roye.

The 5th French Army was behind the line of the Oise between La Fère and Guise.

The pursuit of the enemy was very vigorous : some five or six German corps were on the Somme, facing the 5th Army on the Oise. At least two corps were advancing towards my front, and were crossing the Somme east and west of Ham. Three or four more German corps were opposing the 6th French Army on my left.

This was the situation at 1 o'clock on the 29th, when I received a visit from General Joffre at my headquarters.

I strongly represented my position to the French Commander-in-Chief, who was most kind, cordial, and sympathetic, as he has always been. He told me that he had directed the 5th French Army on the Oise to move forward and attack the Germans on the Somme, with a view to checking pursuit. He also told me of the formation of the Sixth French Army on my left flank, composed of the 7th Army Corps, four Reserve Divisions, and Sordêt's Corps of Cavalry.

I finally arranged with General Joffre to effect a further short retirement towards the line Compiégne-Soissons, promising him, however, to do my utmost to keep always within a day's march of him.

In pursuance of this arrangement the British Forces retired to a position a few miles north of the line Compiégne-Soissons on the 29th.

The right flank of the German Army was now reaching a point which appeared seriously to endanger my line of communications with Havre. I had already evacuated Amiens, into which place a German reserve division was reported to have moved.

Orders were given to change the base to St. Nazaire, and establish an advance base at Le Mans. This operation was well carried out by the Inspector-General of Communications.

In spite of a severe defeat inflicted upon the Guard 10th and Guard Reserve Corps of the German Army by the 1st and 3rd French Corps on the right of the 5th Army, it was not part of General Joffre's plan to pursue this advantage; and a general retirement on to the line of the Marne was ordered, to which the French Forces in the more eastern theatre were directed to conform.

A new Army (the 9th) had been formed from three corps in the south by General Joffre and moved into the space between the right of the 5th and left of the 4th Armies.

Whilst closely adhering to his strategic conception to draw the enemy on at all points until a favourable situation was created from which to assume the offensive, General Joffre found it necessary to modify from day to day the methods by which he sought to attain this object, owing to the development of the enemy's plans and changes in the general situation.

In conformity with the movements of the French Forces, my retirement continued practically from day to day. Although we were not severely pressed by the enemy, rearguard actions took place continually.

On the 1st September, when retiring from the thickly wooded country to the south of Compiégne, the 1st Cavalry Brigade was overtaken by some German cavalry. They momentarily lost a Horse Artillery battery, and several officers and men were killed and wounded. With the help, however, of some detachments from the 3rd Corps operating on their left, they not only recovered their own guns but succeeded in capturing twelve of the enemy's.

Similarly, to the eastward, the 1st Corps, retiring south, also got into some very difficult forest country, and a somewhat severe rearguard action ensued at Villers-Cotterets, in which the 4th Guard Brigade suffered considerably.

On September 3rd the British Forces were in position south of the Marne between Lagny and Signy-Signets. Up to this time I had been requested by General Joffre to defend the passages of the river as long as possible, and to blow up the bridges in my front. After I had made the necessary dispositions, and the destruction of the bridges had been effected, I was asked by the French Commander-in-Chief to continue my retirement to a point some 12 miles in rear of the position I then occupied, with a view to taking up a second position behind the Seine. This retirement was duly carried out. In the meantime the enemy had thrown bridges and crossed the Marne in considerable Force, and was threatening the Allies all along the line of the British Forces and the 5th and 9th French Armies. Consequently several small outpost actions took place.

On Saturday, September 5th, I met the French Commander in-Chief at his request, and he informed me of his intention to take the offensive forthwith, as he considered conditions were very favourable to success.

General Joffre announced to me his intention of wheeling up the left flank of the 5th Army, pivoting on the Marne and directing it to move on the Ourcq; cross and attack the flank of the 1st German Army which was then moving in a south-easterly direction east of that river.

He requested me to effect a change of front to my right—my left resting on the Marne and my right on the 5th Army—to fill the gap between that army and the 6th. I was then to advance against the enemy in my front and join in the general offensive movement.

These combined movements practically commenced on Sunday, September 6th, at sunrise; and on that day it may be said that a great battle opened on a front extending from Ermenonville, which was just in front of the left flank of the 6th

French Army, through Lizy on the Marne, Mauperthuis, which was about the British centre, Courtecon, which was the left of the 5th French Army, to Esternay and Chanteville, the left of the 9th Army under General Foch, and so along the front of the 9th, 4th, and 3rd French Armies to a point north of the fortress of Verdun.

This battle, in so far as the 6th French Army, the British Army, the 5th French Army and the 9th French Army were concerned, may be said to have concluded on the evening of September 10th, by which time the Germans had been driven back to the line Soissons-Reims, with a loss of thousands of prisoners, many guns, and enormous masses of transport.

About the 3rd September the enemy appears to have changed his plans and to have determined to stop his advance South direct upon Paris; for on the 4th September air reconnaissances showed that his main columns were moving in a south-easterly direction generally east of a line drawn through Nanteuil and Lizy on the Ourcq.

On the 5th September several of these columns were observed to have crossed the Marne; whilst German troops, which were observed moving south-east up the left bank of the Ourcq on the 4th, were now reported to be halted and facing that river. Heads of the enemy's columns were seen crossing at Changis, La Ferté, Nogent, Chateau Thierry and Mezy.

Considerable German columns of all arms were seen to be converging on Montmirail, whilst before sunset large bivouacs of the enemy were located in the neighbourhood of Coulommiers, south of Rebais, La Ferté-Gaucher and Dagny.

I should conceive it to have been about noon on the 6th September, after the British Forces had changed their front to the right and occupied the line Jouy-Le Chatel-Fare-moutiers-Villeneuve Le Comte, and the advance of the 6th French Army north of the Marne towards the Ourcq became apparent, that the enemy realised the powerful threat that was being made against the flank of his columns moving south-east, and began the great retreat which opened the battle above referred to.

On the evening of the 6th September, therefore, the fronts and positions of the opposing armies were roughly as follows:—

ALLIES.

6th French Army.—Right on the Marne at Meux, left towards Betz.
British Forces.—On the line Dagny-Coulommiers-Maison.
5th French Army.—At Courtagon, right on Esternay.
Conneau's Cavalry Corps.—Between the right of the British and the left of the French 5th Army.

GERMANS.

4th Reserve and 2nd Corps.—East of the Ourcq and facing that river.
9th Cavalry Division.—West of Crecy.
2nd Cavalry Division.—North of Coulemmiers.
